Exclusive Handlers of Strictly

Tailor-Made Clothing

He Wants His Hat and Coat, but—

there's something in the way. It's our business to remove obstacles, to see that high prices don't stand in the way and to make it easy for you to obtain the best in the market without straining your pocketbook. We make it just as much to your interest to deal with us as it is to our interest to secure your custom. What you want is the best that you can buy for the money; what we offer you is better than you can purchase for the same amount anywhere else. You can find no bargains in clothing which begin to match ours. We are now showing some particularly neat things in Double-Breasted Square-Shoulder Suits—one a Black Serge, satin-lined, decidedly dressy, price \$25. No tailor can give you a better fit, although he would ask you twice the money. Another pretty suit is a Blue-Black Cheviot with a neat hair-line stripe; it is also square cut, satin-lined and especially suitable for gentlemen dressers. We've a light checked Cambray Hair Suit, with patch pockets and Prince Albert lapels—a trifle showy, but swell; something a little darker shade and plainer in a neat Grey Cheviot Casimere, a favorite and sure to please you.

Does not this delightful weather suggest a change for lighter underwear? Why not get a suit of our Past Black at \$25.00.

## OLD HUTCH GONE.

Benjamin Peters, Chicago's Grain Speculator, Disappears, Leaving no Trace.

Reminds Grain Men of the Way he Was Wont to Deal With Their Cash.

Great Excitement on the Chicago Board Because of His Open Trades.

Chicago, April 29.—B. P. Hutchinson, the veteran wheat speculator, known the country over as "Old Hutch" has been missing since last evening at which time he bade a friend good bye and said he would never be seen again.

He has many heavy open trades, and the many rumors circulated in regard to his disappearance have greatly disturbed the market. His son, Charles F. Hutchinson, president of the Corn Exchange bank and ex-president of the board of trade, says his father has been mentally unsound for two years.

A few months ago it was reported that Hutchinson's fortune had been almost entirely dissipated in speculation. At that time a number of Hutchinson's friends and his son tried to induce the old gentleman to give up speculation and lead a quiet life, but their efforts met with no success.

## MODERN SERVICE.

The Pacific Has the Best of Passenger Service.

Vancouver, B. C., April 29.—Another great enterprise has sprung out of that gigantic undertaking, the Canadian Pacific railway was successfully inaugurated yesterday afternoon by the arrival of the pioneer steamer, the Empress of India, at this port, thus completing a voyage from Liverpool with 131 first-class passengers who had availed themselves of the opportunity of a trip around the world.

Leaving Liverpool on February 8, the vessel touched at Gibraltar, Marseilles, Naples, Ischia, Genoa, Colombo, Peking, Singapore, Hong Kong, thence to Kobe, Nagasaki and Yokohama, the regular service on which the vessel will be employed in connection with the Canadian Pacific railway commencing at the last named port.

There has been intense interest manifested on the Pacific coast in regard to the passage of the steamer across the Pacific, it being generally believed she should materially reduce the average time occupied on the voyage. The steamer made the voyage from Yokohama in ten days, fourteen hours, and four minutes, two days under the best record.

## EMPLOYERS COMBINE.

Big Granite Cutting Firms Combine for Protection.

Chicago, April 29.—A meeting of representatives of nearly all the large companies engaged in granite production in this country was held at the Sherman house for the purpose of forming a big combine. An organization was formed under the name of the United States Granite Producers association, and D. H. Freeman, of St. Cloud, Minn., was elected president, and D. E. Swan, of Chicago, secretary. Delegates deny that it is a trust, and intimate that the association is for mutual protection of the producers against the demands of labor unions, which at present controlled wages by being united. Thirty granite companies doing business in ten states were represented at yesterday's meeting.

## A WORTHY DEM.

Sullivan May Represent the Old Bay State.

St. Louis, April 29.—John L. Sullivan yesterday announced that he would in all likelihood be elected to congress from the Sixth Massachusetts district two years hence.

"The Sixth," he said, "is strongly democratic and I am one of the most noted democrats in it. I could have received the last congressional nomination if I wanted it, but I could not afford to take it. There is no money in congress for me."

## The Carter-Ives Match.

Chicago—Billiard experts are arriving today for the purpose of witnessing the match between Eugene Carter and Frank C. Ives at fourteen-inch ball line billiards for the championship. Schaefer and Stinson barred, which takes place at Central Music hall this evening. The game will be 500 points, for \$250 a side, the championship emblem and gate receipts. In the recent "short stop" tournament both Carter and Ives took part, Carter winning the badge. Next week Carter will play Schaefer for the world's championship.

## Deserved to Keep the Clothes.

Chicago, April 29.—James Conly, a tramp, took a fancy to a suit of clothes exhibited on a dummy in front of Frank Goldblum's clothing store, and securing a rope took a position on the roof of the store. Ives took a position on the roof of the store, and by skillful angling caught the dummy below and pulled it to the roof, where he traded clothes with it. An officer who was watching Conly arrested him after a long chase, in which he fired several shots at the fugitive.

## A Detective Whipped.

ANNISTON, Ala., April 29.—A detective named J. N. Martin was horsewhipped by Nora Tanner, keeper of a house of ill repute in this city. The citizens in that vicinity employed Martin to work up a case against the Tanner woman and he paid her two visits, representing himself as a commercial traveler. The woman learned of the plot and last night while Martin was in her room she gave him a terrible beating with a horsewhip.

## A Shot Gun Not In It.

JACKSONVILLE, Ill., April 29.—James W. Morris of Exeter, Scott county, was aroused Monday night by an explosion in his store, and seizing a shot gun went to investigate. Two safe blowers had entered his place of business and secured several hundred dollars. They drew their revolvers and made Morris stand aside while they escaped.

## HUMANITARIAN HONORED.

Monument Dedicated to His Memory in the Cream City.

MILWAUKEE, April 29.—Wisconsin, through its State Bicentennial society, did honor today to the memory of Henry Bergh by formally dedicating a monument which will stand as a testimony of his life work. Several thousand people assembled around the statue and participated in the exercises. Governor Peck in behalf of the society, made a brief address and formally transferred the monument to the city. The erection of the day was delivered by Professor David Swing, of Chicago, and the other speakers included Henry Bergh, New York, a nephew of the man whom all had met to honor, Ferd W. Peck and William Penn Nison.

The monument stands on Market square. It is of heroic size and represents the friend of dumb brutes in the act of stroking a crippled dog. It rests upon a pedestal of granite in the center of a great double fountain, the inner basin being filled with rocks, and flowers for ornament and the outer being a trough for animals. The basin of the drinking fountain is elevated three feet, and the water is drawn from a smaller fountain for dogs. The simple inscription, "Henry Bergh," surmounted by the seal of the society, carved upon the granite, tells its own story.

## THE UNION PACIFIC.

It Shows a Trifling Deficit for the Year: Bridge Contract Annulled.

Boston, April 29.—The Union Pacific Railway company's annual report, issued today, is not as favorable as was expected, the deficit for the whole system being \$275,066.

This loss, President Dillon says in his introductory address, is due to the large increase in the operating expenses of the system, which is in part accounted for by the fact that a larger amount of freight was moved in lower rates than in 1889. If the percentage of operating expenses to gross earnings had been the same as in 1889 the system would have shown a surplus of \$247,976 instead of a deficit.

The statement shows: Union Pacific system (5075 miles) gross earnings, \$44,538,201, an increase of \$2,397,135. Net earnings, \$12,329,066, a decrease of \$1,384,493. Total expenditures, \$31,699,587, an increase of \$298,521. Operating deficit, \$275,066, against a surplus of \$975,763 in 1889.

It was voted to approve the acquisition of \$13,250,000 Union Pacific, Denver & Gulf railroad stock, \$7,180,000 consolidated bonds, \$2,365,000 Oregon Short line bonds, and \$3,705,000 bonds for the purchase of the Rock Island. The company will also issue \$4,730,000 stockholders then voted to approve all proposed stock and bond issues. The company also voted to annul the famous Rock Island St. Paul bridge contract. President Dillon declared the contract unfair and never passed upon the matter. The company also voted to make use of the treasury assets for collateral trust bond to pay floating debt.

The only change in the board will be the election of S. H. H. Clark in place of Mr. Holcomb, who has succeeded as general manager. The board came to the meeting at its close.

The tellers reported at 12:40 that 371 votes had been cast for the regular ticket. The meeting then adjourned. Jay Gould said to a reporter that the proposed new collateral trust 5 per cent mortgage will be limited to \$25,000,000, but not more than \$10,000,000 will be issued at present. These ought to realize 100 per cent. He did not know a better security and intended to take some himself.

## A Wisconsin Railway.

Fond du Lac, Wis., April 29.—The board of directors of the Wisconsin Midland Railroad company last evening elected officers as follows: President, A. Gallows, Fond du Lac; vice-president, C. C. N. Jones, of Nevada; Hon. J. P. Dolliver, of Iowa; Robert P. Porter, J. F. Hanson, of Georgia; F. G. Boultinghouse, of Missouri, and Gen. George A. Sheridan. They are here to participate in the annual banquet of the Protective Tariff league, which takes place tonight, covers being laid for 500 guests. Hon. Charles A. Dana will head a contingent of democrats. The principal oration will be by McKinley.

## A Railway Sold.

TORONTO, Kan., April 29.—The Chicago, Kansas & Nebraska railroad was knocked down this morning to the New York Trust company. This morning the Kansas Midland railroad has been purchased by the Rock Island. The mortgage calls for \$25,000,000.

## Roads Consolidate.

DAYTON, April 29.—The Cincinnati, Hamilton & Dayton Railroad company has leased the Cincinnati, Dayton & Iron ton railroad for ninety-nine years, renewable for ever.

## Distinctly American.

New York, April 29.—Among those in the city today are Hon. William McKinley, of Ohio; Senator N. W. Aldrich, of Rhode Island; ex-Congressman R. M. N. P. Jones, of Nevada; Hon. J. P. Dolliver, of Iowa; Robert P. Porter, J. F. Hanson, of Georgia; F. G. Boultinghouse, of Missouri, and Gen. George A. Sheridan. They are here to participate in the annual banquet of the Protective Tariff league, which takes place tonight, covers being laid for 500 guests. Hon. Charles A. Dana will head a contingent of democrats. The principal oration will be by McKinley.

## Two Banks All Right.

New York, April 29.—Business was transacted as usual today at the Ninth national bank, and the amount of deposits were more than the average. The earnings of the late President Hill are covered by real estate, and there is no fear that the bank will lose anything. The bank is in a sound financial position, and the accounts are found to be entirely correct. As yet nothing is known of Irvington's whereabouts.

## Canadian Parliament Assembles.

OTTAWA, April 29.—The new parliament assembles this afternoon and the city is crowded with legislators. Owing to the closeness of the two parties the session, however, is expected to be a quiet one, and a decidedly interesting one, and Sir John McDonald will be compelled to exercise considerable tact to avoid discussion of his pet schemes. The question of reciprocity with the United States is one of the important questions to be considered.

## Pinkerton's Story.

Boston, April 29.—The house this afternoon rejected the bill preventing the employment of Pinkerton detectives. The vote on the measure was 82 to 82.

## THE THIRD PARTY.

It Will Put Thirty-Five Thousand Spell Binders at Work in the Campaign.

Everyone Warranted by President Polk to be a Self Binder for Votes.

Jack the Ripper Said to Have Been Quickly Caught in New York.

New York, April 29.—President Polk, of the farmers alliance, has just issued a proclamation to the order in which he sets forth the plan of campaign which the national executive board has adopted, and counsels the sub-alliance to cease internal bickerings and to get rid of disloyal members. The plan of campaign consists of a system of lectures by which an army of 35,000 lecturers will plead for the cause.

It also is stated in the proclamation that arrangements are being made for the holding of two or more grand alliance mass meetings in each of the alliance states during the year, or as many more as the brotherhood may desire.

## JACK IS CAUGHT.

Inspector Byrnes Shows Scotland Yard What Detective Work Is.

New York, April 29.—When Inspector Byrnes was asked this morning if he had anything to say concerning the "Jack the Ripper" murder he said: "Not this morning." A few moments later he received a message from James J. Sullivan, an important arrest had just been made there in connection with the case and that the police officials there believed the man for whom he was looking was in their hands.

A later dispatch says the man arrested is a gentleman sailor, and that Chief Police Murphy says there is no doubt the man is the one wanted by Inspector Byrnes for "Jack the Ripper" murder.

## HARRISON AT PALO ALTO.

SAN FRANCISCO, April 29.—President Harrison and party left by train this morning for Palo Alto, where several hours will be spent at the Palo Alto stock farm and the Leland Stanford, Jr., university. Later the train will start for Monterey, where the party will remain over Thursday, returning to San Francisco Friday morning.

## The Trouble Among Lady Managers.

CHICAGO, April 29.—Ex-Secretary Phoebe Cooze's case against the World's fair people came up this morning and was continued until tomorrow at the request of Mr. Walker, the attorney for the board of lady managers. The case is a matter of \$400,000, which the lady managers wish to give the matter more thorough consideration.

## TODAY'S FIRES.

Catskill, N. Y.—Twenty-four frame dwelling houses in the village of Leeds are burned. The heaviest loss is a large hotel, of New York, owner of the greater part of the village. His property burned included the office building, the lower woolen mill and fourteen dwellings, comprising thirty-five tenants, nearly all of whom are in the village. Losses are estimated at \$150,000. The newly erected Mountain City flouring mill, valued at \$250,000, was barely saved. During the fire several car loads of fireworks and other combustibles exploded, terrifying the spectators and those working to stay the flames. The fire department has only three engines and could do but little effective work, especially as a second fire occurred while the first one was still in progress. The second blaze destroyed a few cottages owned by Wm. Willott on East Montgomery street, with a loss of \$20,000.

## PEOPLE BY WIRE.

Nathan S. Fisk, a centenarian, died yesterday at St. Croix Falls, Wis. Fisk was born in Hillsborough, N. H., 1791. He was a school mate of Franklin Pierce. The illness of David Dudley Field came much anxiety. It was said at his house last night that he is suffering with a cold, but his illness is of a more serious nature than the physicians report.

Mrs. Amelia Barnes, wife of Henry Barnes, recently of the Arkansas Volunteers, died yesterday. She leaves four small children. It is believed that she was insane.

The illness of Mahon, the grand old man of the Irish parliamentary party, causes deep anxiety on account of his advanced age. Capt. Mahon was born in 1807. It is said that he first introduced Parnell to Mrs. O'Shea.

The marriage of Mrs. Gertrude Meredith Olmsted and Frank Eldridge Randall, was solemnized this afternoon at "Hollywood" Lakeville, Conn. The bride is a daughter of the late Alexander Lyman Holley, the famous engineer, and a grand daughter of the late Alexander Hamilton Holley, at one time Governor of Connecticut. The bridegroom is a wealthy New York lawyer and a member of the Union league, the University and other clubs.

At Schleswig the reigning prince of Waldeck was today married to the Princess Louise, of Schleswig-Holstein-Sonderburg-Glücksburg. This marriage is the chief social sensation in European courts, owing to the distinguished position of the bridegroom, and the disparity of age between him and the bride. Prince George is in his first year. He has been a widower less than a year. His bride is but 32 years of age and has been in the market for some time, her name having been connected with the present Kaiser, his first marriage, she becomes the step-grandmother to the young Queen Wilhelmina and the children of the late Prince Leopold of England, Queen Emma of Holland, and the Princess Leopold.

## A CAUSE CELEBRE.

The Warner Divorce Case at St. Paul Settled.

ST. PAUL, April 29.—The most celebrated divorce case, that against Lucian Warner instituted by his wife, that has ever been tried in this city was decided by Judge Brill today.

The case created quite a furore in social circles of this city and occupied nearly two weeks' trial, all of the papers publishing the testimony in detail. The court finds that the plaintiff is not entitled to a divorce.

## BRANCHED TOO FAR.

The Whiteley Reaper Works too Much for Their Owner.

SPRINGFIELD, Ohio, April 29.—The Whiteley Reaper works, the largest reaper factory in existence and the factory next in size in the world to Krupp's gun works, has been appraised under the direction of a receiver and will be sold in thirty days. The works with the machinery cost over \$1,500,000.

Whiteley, who built the works, had an ambition to own the largest agricultural implement works in the world. They are far larger than his business required and led to his failure.

## NEWS OVER SEA.

The Indian Massacres the Fault of the British Empire: Foreign News.

CALCUTTA, April 29.—Evidence collected from the Manipuris captured by the British troops goes to establish the truth of the charge made by the usurping rajah, that the British troops, in attacking the palace, had killed several of her women and children, thus provoking the rebellion and consequent massacre.

Mrs. F. Grimwood, wife of Mr. Grimwood, who was put to death, has arrived in this city. Mrs. Grimwood charges that the disaster was due entirely to the weakness of the chief commissioner in refusing to be governed by the sensible advice which had been given him in regard to the negotiations then being conducted with the hill chiefs. She declares that the British have little right to complain of the treachery of the Senaputtees, who were invited by Quenton to attend the treaty, for the single purpose of effecting his capture unwares, and placing him treacherously under arrest. The Asiatic was shot and managed to draw the chief commissioner and his staff within his net. Her story has created a feeling of deep indignation among the people.

## BEATS THE MAFIA.

Italian Justice Uprooting a Criminal Secret Organization.

ROME, April 29.—The trial at Bari of 179 Italians charged with membership in a secret criminal organization known as the "Mafia Vita," which has been in progress here for the past two weeks, will come to an end tonight. The prisoners are young men, ransoms or computers, and the majority are well dressed. No less than 207 witnesses for the prosecution and 425 for the defense have been examined. Thirty counsel have appeared for the accused. The examination of the prisoners alone occupied a week. With few exceptions all pleaded absolute ignorance of the society, but a few of the prisoners admitted that they had shot at and killed several well-known individuals by order of the society and that they feared death as the penalty of disobedience to such orders. Quite a number of the prisoners were found to be tattooed, one man having no less than sixty different marks on his body.

The most important witness was an informer named Passaquindici, who identified seventy of his associates as members of the "Mafia Vita," and said fully 250 more were still walking the streets. He said the society was divided into different grades, one being known as the "Chiaristi," another as the "Pebietti" and a third as the "Giovannotti," the lower grades being subject to the higher. The society, he said, had been in existence over six years. It is thought that a majority of the prisoners will be convicted and sentenced to long terms of imprisonment.

## FINANCIAL GYMNASTICS.

Silver to be Forced into Par Value by Argentine.

Buenos Ayres, April 29.—President Pellegrini stated that the Argentine government has decided to issue notes against reserve silver to be legal tender at par value for all obligations in future, but not to affect debts incurred before the issue of decrees. A law will be passed declaring counterfeit notes not made in the legal currency invalid.

Thus it will be impossible for creditors legally to recover gold. The government grades, one being known as the "Chiaristi," another as the "Pebietti" and a third as the "Giovannotti," the lower grades being subject to the higher. The society, he said, had been in existence over six years. It is thought that a majority of the prisoners will be convicted and sentenced to long terms of imprisonment.

## The Jews Russia's Sinecure.

ST. PETERSBURG, April 29.—A special commission is now being formed by the minister of the interior to consider the rights of foreigners enjoying the possession of immovable property in Russia. The anti-semitic abuse is condemned by liberal Russians, who assert that the Jews are the brains and nerves of the Russian trade.

## A Hawaiian Republic.

HONOLULU, April 29.—Minister Carter has resigned from the cabinet and the people are clamoring for a republic. It is said that the life of the queen is in danger.

## Wisconsin Wants Interest.

MADISON, Wis., April 29.—In connection with the suit of the state against ex-State Treasurer Harshaw and McFetridge to recover interest received by them by public funds during their terms of office Attorney General O'Connor today brought suit against ex-Secretaries of State Rich and Guther, present counsel general to Mexico, for \$15,700; Henry Boetz for \$24,400, and Ferdinand Rahn for \$50,000.

## All the Crew Perished.

NORFOLK, Va., April 29.—The wreck of the schooner R. B. Lark, of Somersport, N. J., was found in Chesapeake bay yesterday with the bodies of two sailors washed to the rigging. It is supposed the vessel capsize Saturday night and the all the crew perished.

## FIRST ARRIVALS.

A Couple of Big Lake Steel Vessels to Arrive in Port Late This Afternoon.

Two Ocean-Going Lighthouse Vessels to be Built in Cleveland.

More Boats to be Built at Bay City for the Atlantic Ocean Trade.

Up to 3 o'clock this afternoon no lower lake vessel, was in sight bound for Duluth. The Weed and Livingstone are, however, expected tonight with the Palmer due early tomorrow. These will be the first boats in this year. Several wheat cargoes are being loaded at the elevators today and probably the first departure will be tomorrow.

The Wheeler shipyard at Bay City, so those in Duluth closely connected with its ownership state, has contracts for the building of two or three steel ships for the New York and Caribbean sea trade. They will be built in sections and taken to tide water in halves. Probably the great success of the Wheeler ship Machine has had a good deal to do with this new contract.

The Mackinnon's sister ship, Keweenaw, built at the same yard, will be put into the water Saturday. She is a very staunch, fine-looking steamship, built entirely of steel even to the pilot house and turrets, and fitted with two steel masts. Her engine and boilers are amidships, as are also her crew quarters, enclosed with heavy steel bulkheads, well lighted and ventilated. She also has a forecastle under her turtleback, with quarters for seamen; also a handsome cabin aft, on the spar deck, finished in mahogany, with bath and spare rooms. All bulkheads on the spar deck are of steel, with heavy steel doors, and all windows are heavy dead lights. She carries 3400 gross tons on twenty-two feet of water and her average speed is twelve and one-half miles, an hour on a consumption of 1600 pounds of coal.

The lighthouse boat at Washington experienced a genuine surprise on Thursday, when the bids for the construction of the two new vessels for the lighthouse service were opened. The astonishment was occasioned by the fact that the seaboard shipbuilders were completely outbid by the builders along the great lakes. The yards of the East being underbid by the lake builders nearly 25 per cent. The lowest bidder was the Globe Iron Works company, of Cleveland which offered to build the two vessels for \$155,700. This is about \$40,000 less than the average bid from the sea coast yards. The next lowest bidder was Wheeler & Co., of Bay City, Mich., who offered to build the vessels for \$195,000. In all seven shipbuilding concerns of the great lakes showed that they are prepared to build ocean steamers, and that they are able to build them at lower cost than ocean shipyards. The lowest bid from the seaboard bidders was about equal to the highest from the lakes.

## A Big Passenger List.

The steamer Hiram R. Dixon came loose from her dock at 11 a. m. today and took her course up the north shore. She had seventy-five passengers aboard, most of them fishermen and their families and explorers. Two Harbors, Beaver Bay, Grand Marais and Isle Royale will be touched at, but no attempt will be made to reach Port Arthur, as the ice in Thunder bay is still too strong.

## Sault Passages.

Sault Ste. Marie, April 29.—[Special to The Herald.]—The only passage through the canal since yesterday was the propeller Palmer, which passed at 9 a. m. for Duluth. She grounded last night in Lake George flats and was released by the tug Cheney. Wind southwest; fair.

## BROKE ITS RECORD.

Several Accidents Delay the Omaha's Passengers.

The Omaha railroad has for once broken its excellent record for being on time. This forenoon while a freight train was switching at the stock yards, a couple of cars went off the track and both the North-bound Chicago limited and South-bound St. Paul express were delayed some hours, the former not arriving here until 1:30 p. m.

Owing to an accident to a switch engine on the track back of the Duluth Packing company's warehouse, the limited was compelled to unload its passengers and express packages at the Northern Pacific dock. It seems that the switcher was pulling a long train of freight cars westward from the siding north of the depot and jumped the track fifty feet before reaching the switch, continuing to a point fifty feet beyond the switch. Here the wheels broke through the track, leaving the engine in a precarious condition. The work of getting it on the track was still in progress at 3 p. m. The accident was an awkward one but the damage will be but slight.

## Because They Advanced Beer.

INDIANAPOLIS, April 29.—The Stonecutters union of this city has adopted a resolution boycotting all union saloonkeepers and lining every member of its union \$10 who violates the resolution by dealing with them. The reason for this action it is alleged, is that the union saloon keepers have compelled the brewers to advance the price of beer to private consumers from \$1.75 to \$2.25 per keg.

## The Anaconda Property.

CURTIS, Mont., April 29.—A story was current here last night to the effect that William Keyser, president of the Baltimore Copper company, will sail for Europe to transfer the Anaconda mines to a syndicate of which the Rothschilds are at the head. The price said to have been agreed upon is \$25,000,000.

## One of Our New Navy.

PHILADELPHIA, April 29.—The new cruiser Newark has been ordered to undergo repairs owing to excessive leaking of the spar deck. This will delay the vessel's going into active commission for some time.

### WELCOME A CUT.

Trunk Line Officials Would be Glad to See a War in Western Rates.

They Had a Meeting to Discuss the Situation in New York Today

But Came to No Conclusion That Appears on the Surface as Yet.

New York, April 30.—A meeting was held here today of the representatives of the railroads interested in the recent West Shore & Soo line cut to St. Paul. Trunk Lines Commissioner Goodard presided. The New York Central, West Shore, Pennsylvania, Ontario & Western, Erie and Lackawanna were represented; also the Western Freight association by Mr. McGeary and the Central Traffic association by Mr. Blanchard. Some delegates from Northwestern roads were also present. The Baltimore & Ohio, Grand Trunk and Lehigh were not represented but no importance is attached to their absence. The alliance between the Canadian Pacific and the Vanderbilt roads is not regarded with favor, and it seemed apparent that many of those present were inclined to approve a rate war if one was advocated. The proceedings were kept secret and up to a late hour nothing was learned of what was going on.

A meeting of passenger agents will be held next week to consider the question of "stealing immigrants."

### BLAIR GOES BACK.

The Not Pleading Chinese Minister Called to Washington.

Chicago, April 30.—Minister Blair will return to Washington today in accordance with a request from Secretary Blaine to that effect. Blair did not appear at all unpleasantly affected by the change in his plans, which was, however, something of a surprise to him. "I have no information regarding the matter beyond what is contained in Blaine's dispatch," he said, shortly after he received the news. "I can say nothing but as to the rumor that the state department has been notified by China that I am non grata and that in consequence I am sent to Japan or Persia. As I have no official knowledge of the cause of my being requested to return to Washington, I am of course saying nothing about my future movements."

### RAILWAY FEDERATION.

Many Organizations Unite in a Railway Federation.

St. Louis, April 30.—It has been learned that the secret meeting of railway employees held Sunday evening resulted in the formation of a strong federation embracing members of at least four organizations and possibly five. The session at which this conclusion was reached was held with closed doors, and the utmost secrecy was maintained by all who participated in the meeting.

The brotherhood of conductors, of brakemen, of switchmen and of locomotive men are now in the federated body, and the conductors are expected to join shortly, and it is believed that the engineers will also come in. The Western engineers will co-operate exclusively in the federation. The federation claims a membership of 65,000.

### A Sensation in Court.

Chicago, April 30.—William D. Spayde, who eloped from Niles, Mich. last winter with Mrs. J. Rose Roberts, was yesterday sentenced to one year imprisonment. There was a scene in the court room after the trial had ended. The husband whom the woman had deserted applied to her to return home with him and their three children. She declared that she would not do so and after warning him never to speak to her, faintly left. It was nearly an hour before she recovered.

### New Express Facilities.

Milwaukee, April 30.—Under a combination with the Northern Pacific Express company, the National Express company, now operating exclusively in the East, will May 1 extend its lines to Chicago and Milwaukee to connect with the Northern Pacific Express company. Besides being connecting points for the two companies, Chicago and Milwaukee will also be made local distributing points. The Eastern connection with Chicago will be over the Nickel Plate.

### Aggricultural Works Combine.

Moline, Ill., April 30.—Lee, Higginson & Co., of Boston, have completed the purchase of the plants of Deere, Moline & Co., manufacturers of corn planters, Deere Harvester works and the Moline Plow company, with an aggregate capital of \$2,400,000. The plan is to unite the plants, recapitalize them and place the securities on the market. It is said that nearly all the capital has been taken in Boston, though some has gone to Chicago.

### Ready Made Paris Dresses.

New York, April 30.—Customs officers have seized \$20,000 worth of dresses made in Paris. It is learned that the agent has built up a large business in supplying dressmakers in the various cities of America direct. Large importing houses who were hurt by this method of doing business are attempting to stop it and claim that they can prove undervaluation.

### Death From Hydrophobia.

ARMON, T. April 30.—Tuesday afternoon at Ottaville, twenty miles west of a young lady named Williams died from hydrophobia. In her last hours her sufferings were terrible to witness. While at the house of a neighbor about a month ago she was bitten by a rabid dog, but the symptoms of disease were not apparent until a few days ago.

### Swinan Wants Back Pay.

WASHINGTON, April 30.—Judge Advocate General Swin has brought suit in the court of claims for \$25,000. The alleged cause of action is that the court martial which tried the general was illegally constituted, and therefore that his sentence was null and void.

### HIS TRIUMPHAL MARCH.

Harrison Goes Speaking and Hand Shaking Along His Way.

Des Moines, Cal., April 30.—The presidential party reached this place last evening, but owing to the expressed wish of the President no formal reception was held. The hotel Del Monte, at which the party is stopping, is profusely decorated with flowers. A reporter of the United Press informed the President shortly after his arrival that the Chinese government had refused to receive Blair, the accredited minister to that country. The President made no comment on the news, merely saying that it was the first information he had received of the action of the Chinese government.

At San Jose a large crowd was gathered at the station when the presidential train arrived. A national salute was fired in honor of the distinguished visitor. The party was escorted to the hotel Yonkers where the President was welcomed by Mayor Buckner. The President made a brief speech, and then he and his party were taken to the hotel Yonkers. Nearly every building in the place was handsomely decorated.

### Was She Justly Bounced?

Chicago, April 30.—The national board of reference and control of the World's Columbian exposition is this morning wrestling behind closed doors, with the problem as to whether the board of lady managers acted within its legal rights in removing Miss Phoebe Cousins, of St. Louis, from the position of secretary. The probability would seem to indicate that the action of the ladies will be approved by the majority, and that Mrs. Susan Gale Cook will be approved as Miss Cousins' successor. Even in this event the fight will not be ended as Miss Cousins and her leading companion, Col. Charles H. Jones, of St. Louis, will insist upon the matter being investigated by the treasury department.

### Cigarmakers' Strike Pending.

Chicago, April 30.—Whether or not the next few days are to witness a general strike of the cigar makers of this city will be decided at a meeting which is in progress today at Kline's hall. The men have made a demand for an increase of \$1 per 1000 which the employers have refused. The latter propose to bring men from New York in the event of a strike.

### A Fight Over a Fence.

Pine Bluff, Ark., April 30.—John J. Hooker and John B. Dorresen, two prominent citizens of this place, quarreled over the location of a boundary fence. Hooker, but not, and finally wounded Dorresen. Hooker was seriously injured from blows of a handspike.

### NEWS OVER SEA.

France Will Play at Repelling German Invasion; Live Foreign News.

PARIS, April 30.—The announcement is made that the armies of France on the frontier of Germany will be exercised in night maneuvers. The German army also is to be exercised in the department of the Moselle, forming a part of the sixth army corps, will assume the positions along the German frontier. Large bodies of cavalry and infantry will move to the reinforcement of the troops of the Moselle and the Meuse. These reinforcements will be brought together by an extensive system of reserve mobilization.

All the conditions of an actual invasion of France by the Germans will be attempted to be met in these maneuvers.

### Bismarck Will Win.

BERLIN, April 30.—The second ballot for a member of the reichstag in the election of April 19, is in progress today. It will decide the question whether Prince Bismarck is to be retired to private life or whether another opportunity is to be afforded him of making his impress felt upon the affairs of the country. The second ballot became necessary owing to the fact that the first four candidates in the election of April 19 received a majority. Under the election laws of Germany, Prince Bismarck, the representative of the Conservatives, and Adolf, the candidate of the free-traders, or free-thinking party, retire from the contest, and the fight today is between Prince Bismarck and Herr Schmalefeld, this socialist champion. The election of the prince by a majority of anywhere over 2000 may be regarded as certain.

### Argentine Bank Scandal.

LONDON, April 30.—At Buenos Ayres gold closed at 250 per cent. The report of the examiners appointed by the Argentine government to investigate the affairs of the National bank is published. It has created an unfavorable impression, and shows a most scandalous state of affairs to exist in that institution. The shares of the bank fell ten points upon the publication of the statement.

### No Reduction for Fifteen Days.

LONDON, April 30.—The Bank of England rate of discount remains unchanged at 3½ per cent.

### JURY DISAGREES.

Plenty Horses Goes Free for a Little While.

MINNEAPOLIS, April 30.—A Journal special from Sioux Falls says that at noon the jury in Plenty Horses trial reported themselves unable to agree, and this being the second time they had so reported to the court, they were discharged.

The jury stood 8 for murder and 4 for manslaughter. This makes a new trial necessary, which will probably be held at the United States court at Sioux Falls.

A Bright Wisconsin Paper Firm. NEESE, Wis., April 30.—The Kimberly & Clark Paper company of the Fox River valley, located at that place, have decided to spend \$300,000 in putting in a small mill to extend to the west, and this being the second time they had so reported to the court, they were discharged.

### No Help for the Fair.

ALBANY, April 30.—The senate adjourned sine die without having acted on the assembly's amendment to the World's fair appropriation bill, which is thus killed.

### Part of Store to Rent.

### THE WHEAT TRADE

Board of Trade Secretary Welles Issues His Annual Report on the Grain Trade.

Duluth Becoming an Important Sample Market With the Big Mills.

A Few Most Flattering Remarks on the Finances of the Board.

Col. Welles, secretary of the board of trade, today finished his report for 1890 and gave it to the printer. It is very voluminous and treats of everything pertaining to the advancement of the commercial, industrial and social interests of the city. Space will admit of only an abstract of what he says relating to the grain business:

"The year for the grain trade of Duluth has been rather disappointing and unsatisfactory. Following the partial crop failure of the previous year in the major portion of the Dakotas, the same causes—lack of moisture, heavy wind storms and unfavorable harvesting weather—again cut short the promised yield, and in North Dakota especially, except in the Red River valley, and other particularly favored localities, the wheat crop was light in yield and quite inferior in quality as compared with the crop of 1889. Even in the best and heaviest yielding counties the crop was very uneven and variable as to quality and condition, while in the aggregate the wheat crops of Minnesota and the Dakotas are now generally conceded to have been about the same—that is, about 30,000,000 bushels for each year, the crop of 1890 was in many respects inferior to that of 1889. A very large proportion of the earlier shipments (both the farmer and country dealer always disposing of their poorest grain first) failed to grade in this market and a portion of the first free movement from farmers' hands was diverted to the sample tables and mixing houses of other markets; so that, though the milling demand here for sample wheat was much in excess of any preceding year, yet so large a portion had to be disposed of by samples that our receipts fell off quite largely. The total receipts for the year, aggregating for the twelve months ending Dec. 31, 1890, 15,341,462 bushels, as against 17,313,681 bushels for the corresponding year in 1889. A coincidence was that the loss in receipts was entirely in the grade of 1 hard wheat.

"One significant feature of the year's business has been the increased trading in No. 1 northern. Under our rules for future delivery it is stipulated, among other things, that the grade shall be a 1 hard wheat. For that reason many country dealers have been led to suppose that transactions for future delivery of No. 1 hard wheat would be made for the other grades in this market. Oftentimes realizing that their own members for the past two years have been deterred from selling here, so that it has been a debated question among our own members for the past two years whether it would not be a wise move to change our rules so as to make No. 1 hard wheat the standard grade. The stock of 1 hard wheat has gained a wide reputation as the choicest and best milling wheat in the world, and that the Duluth market has largely gained its prestige and business from the fact that her No. 1 hard wheat has always been in its purity and integrity makes many of our most prominent and able members doubt the policy of adopting any other grade for contract purposes. On the other hand, fully as many, or perhaps more, of our active and sagacious members argue that as the New York produce exchange has recently decided to recognize Duluth 1 northern as deliverable upon contracts in that market, and as No. 1 northern corresponds more nearly in quality and price to the Chicago contract grade of No. 2 spring and 1 northern is the contract grade in Minneapolis, it would be wise to have two contract grades here as in the past year and to have two sets of quotations going on and as a basis for the country dealer's preference to make sales for future delivery of a grade that they can more confidently ship to fill, it may be decided by this board before the next crop begins to move to change the contract grade." (The change was agreed to yesterday.) "The crop of 1889, 1890, and 1891, has been the earliest in the history of the country, and prices from fifteen to twenty cents higher than those of 1888, and with less than the usual fluctuations, the country dealer's demand for the remainder of the calendar year of from ten to twenty-five cents over those of 1889, so that those farmers who secured even a fair crop of inferior wheat in many cases realized more money than they would for a larger yield and better grades of the previous season.

"Though our receipts of wheat fell 2,000,000 bushels short of those of 1889 our shipments exceeded those of 1889 by 700,000 bushels from the large and low-priced crop of corn and oats, the early months of the year, the bulk of the corn coming from Western Iowa and Nebraska. Owing to the partial failure of the 1890 crop and the resultant high prices at country points, the movement of both corn and oats to this market almost ceased during the last five months of the year. The increased receipts of barley and flax during October, November and December, 1890, made up in part for the loss in corn and oats, and, as the cultivation of these cereals has proved quite profitable to farmers of Northern Minnesota and the Dakotas, we may naturally expect a yearly increase in their movement in this market. The largely increased demand for milling purposes here during the past year caused by the successful success of both the Imperial mill and the Duluth Roller mill gave a new impetus to our trading and resulted in a more general demand for all grades of milling wheat and an increased business in sample wheat and good daily transactions in track wheat, the latter going directly to the mills at a fair premium over wheat in the elevators. With the increased grinding capacity of both these splendid mills and the erection of certain ones and possibly three more mills of very large capacity in the coming year, the indications are for a great increase in the milling trade as a sample market and thus give the country shipper the fullest benefit of both the state system of grades and the

simple plan of disposing of his consignments.

A most interesting portion is that relating to the excellent condition of the board's finances. Frequent inquiries are made by our members and others as to the causes for the recent apparent decline in the values of certificates of membership in this association. In reply it may pertinently be asked why the seats on the New York stock exchange, memberships in the New York produce exchange, Chicago board of trade and all the other exchanges of the country suffered a similar falling off in the speculative business of this and other countries; second, as affecting this board, was the two partial crop failures and the tendency for capitalists and speculators to invest in real estate and the many attractive manufacturing enterprises that are so rapidly developing the resources of this city and the tributary country. It will be borne in mind that there has been issued only 200 certificates of membership in this association, and that by its rules no new certificate except by transfer can be issued for less than \$500, the number being limited to fifty at that figure. During the last two years eleven certificates have been forfeited and cancelled for non-payment of the annual assessment, so that there are now but 189 certificates outstanding.

"These 189 (several of our members owing from two to seven each in their own names), leave about 190 individuals who are members, and who in addition to having the privileges and benefits of the exchange, actually own the board of trade building and property, which, upon a conservative estimate based upon the recent sale upon the opposite corner, is now worth \$120,000, on which we owe \$40,000. Against this indebtedness we have \$11,000 as a sinking fund. Thus we have but \$28,000 in debtedness, leaving a net equity of \$80,000 represented by the 189 certificates, so that each certificate is worth from \$400 to \$455. The annual assessment is based upon the estimated current expenses and is made upon the membership, leaving the rentals to be applied to the extinction of the debt. The association has paid heavy assessments for street improvements the past three years, and has spent several thousand dollars for improving the plumbing and ventilation of the building, which is now in excellent repair and every office of which is occupied. The prospects are therefore that we shall be able to pay \$4000 to \$5000 annually in the sinking fund, and that in a short time each certificate will become a dividend paying security to its owner."

### MARINE MENTION.

Ice on Lake Superior: Arrivals and Departures at This Point.

The Livingston and Emily P. Weed were the first boats to arrive here this season, the former tying up at 5 o'clock this morning and the latter at 6:30. The Livingston brought 2000 tons of cement from Milwaukee for Cutler & Gilbert and will take out flour. The Weed brought 2500 tons of coal from Buffalo for the Northwestern Fuel company, and will take out 2500 barrels of flour, 2200 of which will be from the Imperial mill. The largest flour load ever taken on here has been about 24,000 barrels. Capt. O'Connell, of the Weed, in speaking of his journey here, said that he was two days at Detroit, as the ice looked somewhat solid and he didn't care to force his way through it with an iron boat. At 10 a. m. Monday it appeared solid from Pike Island to Mud Lake, a distance of ten miles. Four hours later the ice was gone, as a regular hurricane had set in from the northwest. Tuesday at 4 a. m. he started up the river and found no ice up to the mouth. For ten or twelve miles this side of the canal there was a little ice, but for the remainder of the distance to Outer Island there was open water. Here the ice has been packed in quite hard and for some distance along the south shore. A course was accordingly taken along the north shore and smooth water was found all the way to Duluth.

### Notes.

The new tug Dorothy Lloyd, named by her owner after one of his daughters, has just been measured. Her tonnage is 720 and her measurements 55, 10 and 4 feet respectively. She takes the place of the burned Eva Wadsworth.

On recommendation of Collector Johnson the secretary has remitted the fine of \$1000 levied upon the firm of Roswell H. Palmer, imposed because he did not take out a steamboat license for his tug.

The inspection department reports that 60,000 bushels of No. 1 northern has been loaded on the Silka and 78,000 on the 102, all from elevator No. 1 of the Sawyer system.

Nick Witt's little steam yacht, the "Larkie," was brought up from Buffalo by the Emily P. Weed. It is one of the finest of its kind ever seen in these waters.

The Smith-Fox company's new tug, the Elsie, arrived this forenoon from Marquette. The Buffalo wheat rate is dull at 2½ cents.

### Passed In.

Prop. E. P. Weed, Buffalo, coal. Prop. Livingston, Milwaukee, cement. The Elsie, Marquette, light.

### Passed Out.

Prop. Dixon, Isle Royale, sandbars. Prop. Silka, Buffalo, wheat. Barge 102, Buffalo, wheat.

### Canada's Flammery.

OTTAWA, April 30.—The first session of the seventh parliament of the Dominion of Canada was formally opened at 5 o'clock this afternoon. His excellency the governor general proceeded in state to the parliament house, and the members of the house of commons having been summoned to the senate chamber, the speech from the throne was read.

The Newfoundland Situation. St. John's, N. F., April 30.—The situation at Fortune bay is growing serious. It is stated that a fleet of thirty-eight vessels, which had run the blockade and supplied the French at St. Pierre with bait, are returning from there armed and intend taking bait by force if necessary. Bloodshed is feared.

### A Strong Team.

Boston, April 30.—All the new collieries of the United States Pacific railroad necessary to wipe out the floating debt of the road will be taken by the Equitable Life Insurance company and Jay Gould.

### IT IS A FIZZLE.

The Great Eight-Hour Strike by Coal Miners Will Not Take Place.

It Was to Have Been the Biggest Labor Demonstration Ever Recorded.

European Capitals Are Quiet in Anticipation of the First of May.

New York, April 30.—The movement of the miners for the eight hour day has fizzled out. Gompers, of the American Federation of Labor, said he had received no official communication from the miners, but unofficially he had heard that the strike has been declared off. This knocks the bottom out of one of the biggest schemes that laboring men have ever mapped out in this country, and Gompers feels very much disheartened.

May Day in Europe.

Paris.—The authorities anticipate no trouble tomorrow, but any attempt at street rioting will be punished with greater severity than has been exercised since the extinction of the commune.

Berlin.—The only signs of approaching May day is the more frequent tramp of troops into leading streets where groups of workmen are gathered. The police authorities have announced that no demonstration tending to edition or disorder will be permitted and the extreme socialists are dogged everywhere by detectives. It is said that an important letter addressed by Tom Mann, the English labor agitator, to the chiefs of the Westphalian mine strike has never reached its destination, having been confiscated by the government.

### NEW YORK ON TRUSTS.

The Legislative Committee Would Drive Them Out of Business.

ALBANY, April 30.—In the senate today Erwin presented the report of the general law committee on trusts. After speaking of the enormous and widespread speculation in the certificates of trusts and certificates of deposit issued by the Central Trust company in exchange for trust certificates which are to the advantage of the men in control and to the disadvantage of the public and the smaller stockholders, the committee urged that legislation be had restricting the formation of trusts as hostile to the interests of the people, or providing for their formation under the supervision of some existing department of the state government, or some board to be created by the law. Second.—That foreign corporations doing business in this state shall pay into the treasury of this state the same tax paid upon incorporating in any other state. Third.—That all trusts or corporations doing business in this state, and which are organized out of the state and hold over the stock of other incorporated companies, shall be required to keep their books in this state, or true copies thereof, which shall be subject to examination.

### THE MURDERER FOUND.

The New York Police Have Proof that Will Convent, the Murderer.

New York, April 30.—Inspector Byrne has fastened the crime for the murder of Carrie Brown. The murderer is Frenchy No. 1, who was arrested on Friday night less than twenty-four hours after committing the crime.

On the night of the murder Frenchy No. 1 occupied room 33 in the East River hotel with a woman by the name of Mary Ann Lopez. This night it is actually known that from that occupied by the Brown woman and her unknown companion. From information in the possession of the police it appears that the murdered woman's companion left her some time before 1 o'clock on Friday morning. George Francis (Frenchy No. 1) had been at one time a lover of the old woman, but for some time he had been insanely jealous of her. After her companion had left the room Frenchy No. 1 got up, crossed to her room and committed the horrible deed. This story is substantiated by many facts.

### The Anaconda Sale Believed.

New York, April 30.—The report that J. E. Haggin had sold the famous Anaconda copper mines to the Rothschilds for \$25,000,000 has been generally credited among metal men. Haggin had obtained large loans from the Rothschilds to aid him in his various enterprises, and the mines had been transferred to cancel those loans. Haggin was seen at his office and made a positive denial of the sale.

### A Splendid Preacher Spelled.

Boston, April 30.—In today's session of the Massachusetts diocesan convention of the protestant episcopal church the Rev. Philip Brooks, D. D., was elected bishop by a vote of 92 to 58.

### PEOPLE BY WIRE.

The marriage of Miss Charlotte Skinner, niece of Dr. Egbert Guernsey, to Count Albert di Foresta, formerly one of the secretaries of the Italian legation and who now holds an important post at Rome, was solemnized at New York this evening.

At St. Jude church in South Kensington, England, today the marriages of Mabel Constance Jennings and James Hannon Leigh, of Birmingham, Stockport, were solemnized. The bride is the eldest daughter of Louis J. Jennings, member of the house of commons, formerly a New York editor and general newspaper writer.

Albert Johnson, the ex-baseball magnate of Cleveland, who recently created a sensation by selling out to the league, was married at Louisville last night to Kate C. Mitchell. The presents were numerous and costly. Mr. and Mrs. Johnson left for Europe.

Prof. John McCrete, of the California state university, is dead at the age of 73. He was one of the foremost geologists and geological writers of the age.

## CITY BRIEFS.

The "Meadow" chorus had an excellent rehearsal last evening.

The police X. M. C. A. tug-of-war took place in the association gymnasium this afternoon.

Some man who has not tasted enough of misery is trying to start a daily paper at West Duluth.

R. C. Nichols was engaged yesterday as clerk in the city engineer's office vice Fred Russell, resigned.

Street railway employees are to meet Monday night to organize a union. The session will begin at 11 o'clock.

Father Mathew society will turn out on the evening of May 1 to attend Bishop McGillicuddy's reception in Catholic Association hall.

An object of special interest on Superior street this morning was a pair of sorrel Shetland ponies driven by L. Hemmel, the livery man. It was a very pretty team.

The ladies of Euclid church will give a strawberry and ice cream festival on Tuesday May 12. C. H. Eldridge will conduct an interesting entertainment on the occasion.

Less than a quorum of aldermen assembled last evening to discuss, informally, the matter of amending the city ordinances. City Attorney Allen was present and gave advice on the details.

Dr. J. B. Weston gave a five-minute talk before the High school yesterday, talking for his subject "Florida." The doctor's descriptive talks of the many places he had visited are very interesting.

The St. Paul Duluth and Northern Pacific railroads have begun suit against J. A. Willard and N. D. Hubbard asking the appointment of three commissioners to appraise certain lots in Bay Front division which they wish to condemn for railroad purposes.

Members of the G. A. R. were very pleasantly entertained by the Woman's Relief corps at a camp fire last evening in the Hayes block. About 100 were present. Music, sociability and refreshments occupied the entire evening. It was a very pleasant affair.

District Attorney Hay, of St. Paul, will be in Duluth Saturday to look into the matter of the appeal for release of Jos. Kronenberg, a Pine City prisoner, committed last winter in default of a fine for intimidating witnesses in a liquor case. The prisoner's attorney will probably be here on that date to conduct the argument for the release.

Senator Daugherty drove a party of Lehigh Coal company officials around the harbor this morning on an inspecting tour of improvements they have been making. In the party were Daniel Ulrich, of New York, the company's engineer; W. A. Lathrop, of Wilkesbarre; Wm. H. Sayre, of Bethlehem, Pa., and other gentlemen.

Soon after noon yesterday the body of a boy, from 9 to 12 years of age, was found at the Superior end of the Northern Pacific bridge by loggers at work there.

The coroner was notified and at 5 o'clock came to the place and tied the body to a log where it remained as late as noon today. The body was clothed, and is supposed to be the remains of a boy who fell in the bay last fall.

A regular meeting of the A. O. H. was held Tuesday evening. Four applications for membership were received. An address was given by the G. A. R., inviting the society to take part in the memorial day exercises was accepted, also one inviting the society to attend in a body at the reception to be given Bishop McGillicuddy tomorrow evening. The members will assemble at St. Edward's church at 7:30 o'clock tonight at 7:30 and from there proceed to Catholic association hall.

Tickets to the musical festival can now be secured by applying to members of the chorus.

We buy notes and short time paper. Also purchase money mortgages. Clark & Crossley, 402 Palladio building.

The Contest at His Old Tricks.

The land office is hearing the contest of H. H. Wingo vs. Otto Johnson today. The land affected is a homestead near Grand Lake. The homestead was filed in last year and in the winter Johnson attended Parsons Business college in Duluth. When contest was originally declared on the ground of abandonment, notice was given Johnson through the Duluth land office, and as he is alleged to have gotten his mail at Onseto, he was not made aware of any proceedings until some time after the date for the hearing. The contest is now reopened.

To Improve the Prairie.

The Prairie River Navigation Improvement company has filed articles of incorporation with the register. The company is capitalized at \$40,000 and will have its headquarters at Duluth. Promoters of the enterprise are, F. A. Powers, Townor, N. D.; S. S. Smith, Isaac West, W. E. Worden and H. G. Ingersoll all of Duluth. The company will operate on Prairie river and tributaries in Itasca and St. Louis counties.

A New Church.

A congregational society was organized at New Duluth yesterday, the first religious body to be formed in that flourishing suburb. Rev. C. C. Salter acted as moderator and Rev. H. H. Morley delivered a stirring address. Rev. J. R. Colley was installed as pastor of the new church. The society starts out with nine members and more will be admitted at the next meeting.

Fishing in Near-by Lakes.

County Auditor LaVaque has received a copy of the bill passed at the last session of the legislature which regulates the catching of fish in Carlton, Cass and Grand lakes, St. Louis county. It places the time at which fish may be taken between June 1 and Oct. 1, a rather short season, say the fishermen.

W. Anderson, a wheat grower of Mayville, N. D., was on the board of trade today. He says that the seeding of wheat was never so well accomplished in his vicinity as this year, and that the conditions are favorable for the largest crop ever harvested.

D. H. Stevenson has returned from a business trip in the East, spent with the sole idea of interesting solid capitalists in this section. He visited Chicago, Indianapolis and other points, and says that during the present season will have from fifteen to twenty investors here as a result of his trip.

Company K Inspection.

Brig. Gen. Bomker made his annual inspection of Company K in Second regiment hall last night. The boys were in excellent condition. Their uniforms were faultless, and after a very close examination of the guns, all were shown to be in perfect condition. The maneuvers of the company were creditable and done with precision. Gen. Bomker, as a state officer, makes his report to the state, and of course would make no statement of what he would report.

Damaged by Electricity.

Last evening during the thunder storm lightning struck the residence of C. F. Lindstrom, No. 11 East Fifth street. The chimney was torn down and all stove pipe connected with it was ripped open, and scattered over the rooms. Mrs. Lindstrom was sitting near the kitchen stove when the bolt came down the pipe and was badly shocked. Two boys were in a front chamber, and one of them, not realizing what he did, jumped through an open window to the ground. He escaped with few bruises. Some windows in a house adjoining were broken by flying bricks, but little damage was done.

WORKMEN BUSY.

Improving Beautiful Woodland Going on at a Very Rapid Rate.

The improvement on the Motor line still goes on. The company is ballasting the track as fast as a big crew of men can do it. More switches are on the way and will be put in as quickly as possible and the preparations for the planting of the great row of maples along the whole length of Woodland avenue are being hurried. The work is all being carried on in a systematic way. The electric car service continues to improve and people can now see what kind of convenience will be given to the many who will build along Woodland avenue. Homes out there will practically be as near as homes in Endion. The trip from Woodland Park to the Spaulding will take but twenty-five minutes and from Motor Line Park but fifteen minutes. The business man who invests a small amount in one or more lots and secures a homestead on the motor line, that give all the advantages of health, plenty of room and beautiful suburban location, will also have the advantages of a city residence. A man located in the midst of the city or on a closely built up street has not the freedom of action and cannot have the pleasures of home life to be found in the suburbs. His family does not get the pure air, his children are thrown into the way of temptation. Every consideration should lead the busy man, and especially the man who has not a fortune to put into a home, to locate in Motor Line Park or Woodland Park, or better still, on a five-acre tract of motor land, where property is cheap and where it will have a big advance.

Jack and Jill each took a pill.

Old-fashioned kind—full grown; Jack's went down—last in a town—Jill died from "cause unknown."

Scoles will supersede many towns and many discomforts will be unknown, when Dr. Pierce's Pleasant Purgative Pellets entirely supersede, as they did last fall, do, the large and less efficient pill of our forefathers. Every day they gain new laurels. Most popular when most ill abound!

## THE MARKETS.

Wheat Quiet and Lower; Old Hutch's Trades Straightened; Stocks Quiet.

The local wheat market opened weaker this morning on depressed cables and the situation at Chicago. Prices were at first 1/2c lower, and this proved the lowest of the day. An advance at once set in, which carried values up 1c here and even more in other markets. Hutchinson's affairs at Chicago straightened out and this removed a load. The market was generally quiet.

Cash 1 hard closed at \$1.07 1/2; cash 1 northern closed at \$1.03 1/2; cash 2 northern closed at \$1.02 1/2. April 1 hard closed at \$1.07 and 1 northern at \$1.05. May 1 hard opened at \$1.07 and advanced to \$1.10 1/2 and closed at \$1.09 1/2. May 1 northern opened at \$1.07, advanced to \$1.08, declined 1/2c, dipped up to \$1.07 1/2, closed at \$1.07 1/2. June 1 hard closed at \$1.11 1/2. June 1 northern closed at \$1.08 1/2. July 1 hard closed at \$1.12 1/2. July 1 northern closed at \$1.09 and closed at \$1.10.

Transfers Hutch's Trades.

Cutoano, April 30.—About one minute before business commenced on the board this morning Secretary Stone made the announcement that all open trades with E. P. Hutchinson were to be transferred to C. B. Congdon. Confidence immediately took the place of a very general fear which had existed. The transfer of Congdon of such trades as are still open with Hutchinson is simply in the nature of a guarantee that no one shall suffer pecuniarily from the absence of the old speculator.

Today's Wheat Movement.

Inspection today, 26 cars; 1 car 1 hard, 11 cars 2 northern, 14 cars 1 white winter. Same day last, 20 cars, total inspection, 8 cars. Receipts, 40,690 bu; shipments, 138,719 bu. Cars on track 37, of which 6 were Northern Pacific and 31 Eastern Minnesota.

Chicago Wheat.

Cutoano, April 30.—July wheat which closed last night at \$1.04 1/2, opened at \$1.04 1/2 and sold at \$1.05. It afterwards dropped back again to \$1.04 1/2. July corn started unchanged at 62 1/2c and sold to 62 1/2c. July oats started at 47c; July pork at \$13.02 1/2; July ribs at \$6.60. Cables all quoted lower wheat markets abroad and the balance of the news was also bearish. The trading in wheat during the first hour was quite dull. Linn, Bloom and Cudahy bought rather freely. July crop from \$1.04 1/2 up to \$1.05 1/2 and ended back to \$1.05 1/2. July corn advanced to 63 1/2c and July oats to 47 1/2c. Following is the close: Wheat, May, \$1.05 1/2; July, \$1.04 1/2 @ \$1.05. Corn, May, 62 1/2; July, 63 1/2. Oats, May, 46 1/2; July, 47 1/2. Pork, May, \$12.50; July, \$13.00. Lard, May, \$6.77 1/2; July, \$7.02 1/2. Ribs, May, \$6.27 1/2; July, \$6.60.

New York Money and Stocks.

New York, April 30.—Money on call at 3 @ 3 1/2 per cent. Exchange steady; posted rates 48 1/2 @ 49 1/2; actual rates, 48 1/2 @ 48 1/2 for sixty days, and 48 1/2 @ 49 for demand. Government's quiet; currency, 6 1/2 bid; 4 1/2 coupon, 120 1/2 bid; 4 1/2 do, 101 bid.

The market was only moderately active but the tone was strong. Prices advanced gradually. The principal trading was in St. Paul, Lackawanna, Union Pacific, Missouri Pacific and the sugar trusts. At noon values were 1/2 to 3/4 per cent higher.

A Prominent Physician Succumbs.

WASHINGTON, April 30.—Dr. W. G. Mauss, a well-known physician of this city, attempted suicide last evening by shooting himself. Dr. Mauss is about 60 years of age and a short time ago was attacked by the grip which developed into pneumonia.

Piano Factory Burns.

QUINCY, Ill., April 30.—The A. S. Quinby & Co.'s piano factory at this place was destroyed by fire at 7 o'clock this morning. Loss, \$45,000; partially insured.

The Chilian Trouble.

New York, April 30.—A cable dispatch to the Recorder from Valparaiso says President Balmaceda of Chili has narrowly escaped death from assassination.

## CITY BRIEFS.

The new intake pipe is now out 500 feet. The end is in forty-five feet of water.

Pile driving on the Fulton street dock was begun this morning. It is a much-needed improvement.

Messrs. Pressnell, Tedford and Hibbing tomorrow go up to the Mallin, New Castle and Myra mines.

The players amused themselves this morning with a game of baseball on the lot opposite the postoffice.

Robert C. Johnson and Frank L. Sawdy were sworn in as specials on the city police force this afternoon.

Wm. Schupp, this morning, received a full-blooded pointer from Arendia, Wis. The animal is a fine one and is valued at \$150.

Tomorrow is the last day on which notes of issue for the May term of the United States district and circuit courts can be filed.

The police telephone system, which was badly damaged by the wind and lightning Wednesday night is nearly all in working order again.

Geo. N. LaVague has taken out a building permit for a barn to cost \$300, located on First street between New York and Pennsylvania avenues.

The sale of seats for the Ward-Bower's engagement at Temple Opera on Monday and Tuesday evenings of next week will open tomorrow morning at box office.

Only two billiard licenses have so far been issued. It is probable that an example will be made of a delinquent unless the matter is attended to this week.

The body of S. Fred Laddell will be sent Monday to Mendota, N. J., his old home, for interment. A. H. Brockhurst, who has charge of the Laddell estate, will take the body East.

The thirty-second degree of Scottish Rite masonry was conferred upon a class of sixteen at Masonic temple last evening. This is the last work of the kind to be done this season.

A. Terryberry is busy making plans for a Swedish baptist church to be erected not far from Lake avenue north. The exact location is not yet decided on. The church will cost about \$4000.

A total of 314 dog licenses have been issued by the city clerk. This is a small per cent of the real number of dogs in the city, the owners of which are subject to a fine unless they act promptly.

It is claimed that the brickwork on the new Central high school is not up to the standard and the board of education will investigate. Trainers Bros, the contractors, have done a great deal of excellent work in Duluth.

Across the bay everything is quiet. The union plumbers who went out this morning, demanding the same concessions as their brother organization in Duluth, have come to an agreement and will return to work tomorrow.

The Duluth Book and Paper company has just issued in book form, the new municipal court act in force from April 13. It makes a book of about thirty pages and is a convenient reference for the act as approved by the governor.

The Duluth policemen and Y. M. C. A. tag-of-war at the association gymnasium last evening drew a large crowd of interested spectators. Four of each side participated, the police team weighing in all 521 and their opponents 625 pounds.

At the end of five minutes the police had the advantage by 1 1/2 inches. The contest may be tried again.

An effort is being made to do something to afford innocent amusement to the laboring classes. It is proposed to have a series of popular concerts by the military band, which will be given in the city proper and the west end. J. J. Engberg thinks with \$100 the band can be put in good shape for the season. R. C. Ray, it is understood, has offered to furnish suits for the band.

Tickets to the musical festival can now be secured by applying to members of the chorus.

Mortgages bought. Collateral and short time loans wanted. CLARK & PARSONS. We buy notes and short time paper. Also purchase money mortgages. Clark & Crossley, 402 Fifth Avenue.

A European Hotel. The Tremont, a new hotel to be constructed upon the European plan, will be opened in the new building, about May 20. John Geriet, the proprietor, is a gentleman of over twenty years' experience in the hotel business. The office, dining-room and kitchen will occupy the first floor, excepting that portion already in use as a wall paper establishment. The remaining three floors will be devoted to parlors and bedrooms, all affording ample space for a commodious house. The new establishment will be the first European hotel at the head of the lakes.

The Prentice Case. In the case of Duluth property holders against Prentice in the United States circuit court, proofs on behalf of the complainants are now complete and the case will stand for trial during the June term at St. Paul. This is an unusual sent in equity by all Duluth property holders to quiet their titles to valuable inside property against the Prentice claim.

A Church Burned. Wednesday afternoon the new Presbyterian church at La Prairie was burned to the ground. The building was just ready for plastering and it is believed that the fire was started in some shavings from the pipe of a workman. It is a severe loss to the society as the members are mostly hard working people and it will be some time before they can rebuild.

The "Dark Secret" company gives a matinee at Temple Opera tomorrow afternoon and closes its engagement here tomorrow night.

\$15.00. \$15.00. \$15.00. At the above price and upwards we will take your measure and make you a good business suit to order and guarantee the fit or no suit. Call and examine our heavy assortment of cloths and be convinced. CHARLES W. ENGBERG, 219 West Superior street.

## PERSONAL.

N. A. Gearhart has returned from a trip to Aitkin.

Geo. Sherrin, of the St. Paul News, is in the city.

Col. E. A. McNair leaves today for Madison.

Mrs. George Ruple and family have returned from a long southern visit.

Alex. L. McGregor leaves on today's Omaha to take up his abode in Orléans.

Dr. Mary Knapp has returned from Jamestown, N. D., and reopened her office.

James O. Smith and Richard J. Matheson, of Cranberry river, are at the Merchants.

Herman Beier returned last night from a purchasing trip to New York and Chicago.

Mrs. A. McIntosh, of La Prairie, is the guest of Mr. and Mrs. Fred Russell at Lakeside.

J. D. Stryker and family have returned from their winter's sojourn in Florida and the East.

Little Edward Ready, son of James Ready, who has been seriously ill with diphtheria, is out of danger.

Ex-Postmaster Flynn came back to Duluth yesterday for a few days' visit. Both himself and Mr. Dewey are doing well at Paulineville, Ohio. Mr. and Mrs. Flynn and their baby expect to return to Duluth before very long.

G. H. Warren, of Minneapolis, partner of Warren & Conkey's claim in 33-40 fifteen miles east of Ely came down from the range today. He has just put a crew of eight men at work with a diamond drill. Last season's tests were not rewarded with the finding of ore, but the owners have great faith in the property as they consider the formation perfect.

A MUSICAL.

The Saturday Club to Give an Excellent Musical.

The Saturdays give a musical on Wednesday evening, May 6, at 8 o'clock, in the Duluth Music company's rooms, 106 West Superior street, at which the price of admission will be fifty cents.

The following most excellent program will be given:

Chorus—Spring song of twenty voices, "Santa Lucia." Mrs. J. L. Thwing, Mrs. F. C. Bowman and Ladies.

Piano solo—"Tarentelle." Mrs. J. L. Thwing, Mrs. F. C. Bowman and Ladies.

Vocal solo—"The Rose Tree." Mrs. J. L. Thwing, Mrs. F. C. Bowman and Ladies.

Piano solo—"Impromptu." Mrs. J. L. Thwing, Mrs. F. C. Bowman and Ladies.

Vocal trio—"In the Forest." Mrs. J. L. Thwing, Mrs. F. C. Bowman and Ladies.

Chorus—"La Tola." Mrs. J. L. Thwing, Mrs. F. C. Bowman and Ladies.

Vocal solo—"The Rose Tree." Mrs. J. L. Thwing, Mrs. F. C. Bowman and Ladies.

Piano duo—"Tannhauser March." Mrs. J. L. Thwing, Mrs. F. C. Bowman and Ladies.

Mrs. W. W. McMillen, "Resumé of French Literature," Mrs. D. Buchanan, subject of discussion, "Russian Jews."

Saturday Club.

The following program will be given at the meeting on May 2: "French Animal Painters—Rosa Bonheur," Miss Roe;

"The Representatives of Moral and Speculative Philosophy—Victor Cousin and August Comte," Miss Goodale; "Scientists of Nineteenth Century," Mrs. Barnard;

"Historians of the Same Period," Mrs. Johnson; "Eminent French Scholars," Mrs. W. W. McMillen; "Resumé of French Literature," Mrs. D. Buchanan; subject of discussion, "Russian Jews."

FIRE AT WEST DULUTH.

House and Boiler Shops Destroyed This Afternoon.

At 1 o'clock this afternoon a small residence occupied by Jack Rickard and located across the tracks northeast of the depot caught fire from a defective fuse and was burned to the ground. The fire spread to the boiler shops and before it could be extinguished the building was totally destroyed. At the time of writing, 2 o'clock, the damage has not been estimated.

A Heavy Affliction.

James E. McIntire, who has had charge of the improvements being made by the water power company, has gone to New York to be treated by a famous specialist.

For some weeks a nervous disorder has been growing on Mr. McIntire, and it has finally arrived at that stage where it makes him uncertain of his movements. He will remain a director of the company, but unless his condition is soon bettered a successor will have to be found to take up the work. A telegram received from Chicago late this afternoon says he is stricken with paralysis there.

ARBOR DAY.

It is Observed in Duluth in a Practical and Common Sense Way.

The inventor of Arbor Day should be remembered. Who he is is not known to the great masses of the people. His name should be resurrected from its obscurity and made familiar to all the great home loving, nation-shipping, shade-seeking population of America. Especially should it be taught to the children, for he has conferred a blessing upon the country which will not find full appreciation until the next generation. The observance of the day is not as general as it should be. The school exercises are fine objects of lessons which will bear fruit, but the whole people should turn out and plant trees on the highways, in yards and wherever needed. The exercises of Duluth's schools are fully described elsewhere. There was another very interesting observance of the day here, which was quickly made and without speech making, singing or declamations. For several days the preparations for tree planting on a large scale have been going on in Duluth's newest and best residence locality, and yesterday it was fully inaugurated by the unloading of the first carload of beautiful maples five inches in diameter. These were put in the ground along pretty Woodland avenue, which will be lined with them on both sides, for a distance of four miles. They will stand forty feet apart. This is only one of the many ways in which Woodland will be beautified. The prettiest part of this avenue will be Woodland park and Motor linepark, both of which will be packed in reality as well as name. One lot in either of them will make a magnificent home site, while two, three or four of them will give grounds that will yield a personal pleasure. Why not buy some of these lots now while they are so cheap, or better a few ten acre tract? Regular electric car service. Only five cents a trip.

## THE MARKETS.

Wheat Takes a Jump; Cables Stronger and Higher; Crop Outlook Bright.

Wheat was considerably stronger today, advancing the opening 1/4 to 1 1/4 and holding the improvement well through the day. The first sales here just at the opening were 1/2 above yesterday's close, but were swamped by May and June and hardly made a market price. The firmness was due in great part to the heavy deliveries here and at Chicago, which were said to largely land in shippers' hands. This was especially so at the latter place. Here the day's deliveries were from 2,000,000 to 3,000,000 bushels and went to both shippers and carriers, the former getting the bulk of the wheat. Paris cables were stronger and higher. The Spokane exchange reports the wheat yield of that section the most promising on record. The secretary of the Kansas board of agriculture says the chinch bugs have not yet made their appearance in Kansas wheat fields. The Chicago market was decidedly more active today than the outside figures.

May 1 northern sold at \$1.09, up to \$1.09 1/2, and closed at \$1.09 1/2. June 1 hard regular, car lots closed at \$1.12 1/2, and closed at \$1.12 1/2. June 1 northern sold at \$1.10 1/2 and closed at \$1.10 1/2. July 1 hard closed at \$1.13 1/2, northern sold at \$1.11 1/2 and closed at \$1.11 1/2.

New York Money and Stocks.

New York, May 1.—Money on call at 3 1/2 @ 4 per cent. Exchange steady; posted rates 48 1/2 @ 49; actual rates, 48 1/2 @ 49 1/2 for sixty days, and 49 1/2 @ 49 1/2 for ninety days. Government's steady; currency, 6 1/2, 113 bid; 4 1/2, coupon, 121 bid; 4 1/2, do, 101 bid.

The market was decidedly more active this morning, 212,900 shares changing hands in the two hours to noon. The opening prices were generally 1/2 to 1/4 per cent higher and in the early trading there was a slight advance. Prices made a gain up to 11:30, but the announcement of the engagement of \$2,000,000 in gold checked business and caused values to decline.

A. H. Karl, manager of the Shell Lake Lumber company's mills, which turn out 30,000 cubic feet of lumber a year, is in the city to look after machinery repairs being made by the Marquette Iron works. He is the owner of state leases on silver lands in Cook county just this side of the boundary and one mile from the proposed line of the Duluth, Port Arthur & Western road. He says that the law relating to the leasing of mining lands is very unsatisfactory in that it makes no provision for the amount of money to be paid on silver output and leaves it to the auditor to charge whatever he cares to. The auditor may make a high charge, and he may make a low one. People do not, however, like to assume the expense incident to putting in an expensive mining plant and at the same time risk losing it all through the arbitrary ruling of the individual whose interest may be against that of the lessee.

Reciprocity With Spain.

Washington, May 1.—Ex-Minister J. W. Foster, who has just returned from Spain where he went on a special mission, had an audience with Secretary Rinehart this morning and laid before him the reciprocity treaty which he negotiated with Spain while abroad.

CHICAGO WHEAT.

CHICAGO, May 1.—All the markets opened very strong. Deliveries of wheat on May contracts were very large, but cables were higher and the local crowd was short. July started at \$1.05 1/2, and the effect of the heavy deliveries was seen in the May futures, which started at \$1.06 1/2 and sold to \$1.06 1/2—only 1/4 above the July. July corn started at 68c and sold to 69 1/2c; oats, 47c and sold to 48c; 49c. July pork at \$12.10 and sold to \$12.25. Deliveries of wheat on May contracts were 1,500,000 but deliveries of corn and oats nothing. Deliveries of pork, lard and ribs were large. Receipts of wheat at Duluth and Minneapolis, 403 cars.

Following is the close: Wheat, May, \$1.07 1/2; July, \$1.06 1/2; Corn, May, 67; July, 65 1/2; Oats, July, 48 1/2 @ 49; Pork, May, \$12.25; July, \$12.10; Lard, May, \$6.77 1/2; July, \$7.02 1/2; Ribs, May, \$6.25; July, \$6.57 1/2.

Back from Dubuque.

Dr. Ringland and W. C. Sherwood returned this afternoon from Dubuque, Iowa, where they went to attend the installation of Rev. Adair McDonald as professor of Biblical and ecclesiastical history in the German Theological school of the Presbyterian church. The event took place Wednesday evening. Last evening a meeting of the board of directors of the school was held, of which body Dr. Ringland is president.

To Scatter Silver.

Washington, May 1.—United States Treasurer Nebraska will issue a circular this afternoon stating that banks throughout the United States will on application be furnished at the expense of the treasury department with \$200 in subsidiary silver coin. The circular will also state that the supply of standard silver dollars in the treasury, except those upon which silver certificates have been issued, is practically exhausted.

Woman's Modesty.

Many women are prevented by feelings of delicacy from consulting a physician in those disorders arising from functional derangement of her peculiarly delicate organism, and the most serious results are often caused by this neglect. To such persons Dr. Pierce's Favorite Prescription is an especial boon, as it offers a sure and safe cure for those distressing disorders to which women are peculiarly subject, while it saves a modest girl or woman from embarrassment by a personal consultation with a physician. "Favorite Prescription" is the only medicine for women's peculiar weaknesses and ailments, sold by druggists, under a positive guarantee from the manufacturers, that it will give satisfaction in every case or money will be refunded. See guarantee on bottle wrapper.

## HARRISON TALKS.

He Addresses a Big Audience at San Francisco on Some Various Topics.

But Chiefly on the Policy of Subsidizing the Nation's Marine Trade.

The Presidential Swing About the Great Circle Now on the Home Side.

SAN FRANCISCO, May 2.—At the banquet given in his honor at the Palace hotel last night President Harrison spoke as follows:

When the queen of Sheba visited the court of Solomon and saw its splendors she was compelled to testify that the half had not been told her. Undoubtedly the emblems of Solomon's court who had penetrated the distant territory found themselves in a like situation to that which attends Californians when they travel East; they are afraid too much to put to test the wisdom of their leaders, and it has resulted in a prevailing indisposition among Californians to tell the truth outside of California. Not at all because California is unfriendly to the truth, but solely out of compassion to their hearers. They address themselves to the capacity of those who hear them; and, taking warning by the fate of the man who told the sovereign of the Indies that he had seen the water so solid that it could be walked upon, they do not carry their best stories away from home.

It has been, so well known as I have heard of California, a brilliant disillusion to me and to those with me. Half has not been told of the productiveness of your valleys, of the blossoming orchards, of gardens laden with flowers. We have seen and been entranced. Our pathway has been strewn with flowers, and I have been surprised when in the region of roses to be suddenly pulled up at the station and asked to address some remarks before a pyramid of pig tin. Products of the mines, rare and exceptional, have been added to the products of the field, until the impression has been made upon my mind that if any new world should be developed in the arts, possibly if any want in statesmanship, or any vacancy in office we have a reservoir here to draw upon.

But sweeter and richer than all has been the hearty kindness with which the people of California have received me. Without division, without dissent a simple yet magnificent American welcome. How grand it is that we are people who bow reverently to a decision when it is rendered and who will follow the flag in ways—everywhere—without asking what party may have given the leadership or in whose hands it has been placed.

I believe that we have come to a new epoch as a nation. There are opening portals before us to trade and influence and prestige. We will pursue the path of peace. Only intolerable aggression, only the peril of our institutions, only the flag can ever bring us to arms. With capabilities for war on land and sea, unequalled by any nation in the world, we are embarking in peace. We would promote the peace of this hemisphere by finding judiciously some large agents about the Golden Gate simply for saluting purposes, and yet not to be the best. We should have on sea some good vessels, we don't need a navy as great as some other nations, but we do need a sufficient navy of first-class ships, simply to make sure that the peace of the hemisphere is preserved, simply that we may not leave great distant marts and harbors of commerce and our few citizens who may be domiciled there may feel themselves for the state of all American flags. We want merchant ships. I believe we have come to a time when we should have a navy that will continue to be non-partisan in the commerce of the world or vigorously claim our share of the world's commerce. I will not say that the revision of the methods of which the postal bill of the session of congress marks the beginning. Here in California, where for so long a time a postal service that did not pay its own way was maintained by the government, where the government has paid out yearly a limited time the revenue that was derived, it ought not to be difficult to persuade you that our ocean mail should not longer be the only service for which we ever refuse to expend the revenues derived.

The President closed by expressing the hope that the Nicaragua canal would be completed in good season. The Presidential party arrived at Sacramento early. The ladies were too fatigued to accompany the party and remained at the Palace hotel. Escorted by military and civic organizations, the party was taken along the principal streets to the state capital, where the school children of the city gave the President in the capitol park and delivered the address of welcome, to which the President made a brief response.

THE DENVER CRIME.  
Dr. Graves Believed to Have Poisoned His Wealthy Patient by Mail.

PROVIDENCE, R. I., May 2.—Dr. Graves has been identified as the man who, on March 30, mailed in Boston the liquor which caused Mrs. Barnaby's death at Denver.

A man, whose name is withheld in the postoffice on that date and while waiting for a stamp he was crowded from the window by a tall well-dressed man, who was in much hurry. This man hid a package on the window. The package was weighed and a \$5 bill tendered in payment. It was noticed that the package was addressed to Denver. The description of Dr. Graves tallied exactly with that of the man who had mailed the package.

The man came to this city and last night he identified Dr. Graves fully as the man who had mailed the package. Further, he has identified the stamped wrapper which enclosed the package. The relatives of the murdered woman had a conference with Dr. Graves on Friday and it is believed that decisive steps will now be taken to have the doctor apprehended.

## CAL BUYS A COAL ROAD.

Calvin Brice Purchases One of the Upper Lake Coal Fields.

CLEVELAND, Ohio, May 2.—A rumor is in circulation in railroad circles in this city to the effect that Senator C. L. Brice has purchased the Cleveland, Lorain & Wheeling railway, which runs from this city to Bellen, Ohio, and has connection there with the South. It is said that Brice has offered to take the controlling interest and will guarantee to the minority stockholders a 5 per cent annual dividend. The Cleveland, Lorain & Wheeling is a great coal feeder for Cleveland and the upper lakes. It is one of the best coal roads in the state and runs through a rich country.

## Business Looks Better.

New York, May 2.—Dun & Co.'s weekly review says business is large in volume and sustained by general confidence as to the future. It is encouraging, in proportion to that the market for breadstuffs has broken and wheat is nearly six cents per bushel lower. A week ago, oats two cents and corn one and a half cents. The failure and disappearance of the most conspicuous trader at Chicago makes it probable that the market may hereafter represent more nearly a legitimate trade. Reports in other cities are more favorable than a week ago.

## NEWS OVER SEA.

The Royal Naval Exhibition Opened at London; Other Foreign News.

LONDON, May 2.—The prince of Wales, on behalf of the queen, this morning formally opened the royal naval exhibition. The scene was a most imposing one and the ceremony of opening the exhibition was accomplished by a curious device. A model two feet in height, of a new Edystone lighthouse rested on a glass pedestal on the platform, and at the same moment a miniature flag, on which by electrical communication, a gun was fired, the royal standard, hoisted on the top of a full-size model (170 feet high) of the old Edystone lighthouse on the grounds of the exhibition. At the same moment a miniature flag, and an electric light were displayed from the little model on the platform while the model warships in the room fired a royal salute.

## In Happy Italy.

ROME, May 2.—Two hundred persons have been pined under arrest charged with having been engaged in yesterday afternoon's rioting. A gentleman who was wounded died this morning. A large number of mechanics engaged in the building trades suddenly struck work and will remain in Chicago a few days. They promptly dispersed them. Nevertheless, many shopkeepers are refusing their services in apprehension of further trouble.

## PEOPLE BY WIRE.

The German historian and poet, Ferdinand Gregorovius of Berlin is dead.

Mrs. James G. Blaine Jr., left Sioux Falls, evening for New York. She will remain in Chicago a few days. She will come back to Sioux Falls in ten days. C. P. Huntington, the railway magnate, will take his rest in the city. He will probably be arrested and punished for contempt of court in disobeying a subpoena issued by the United States district court in the latter part of March.

Bismarck received the news of his success with unalloyed satisfaction. As soon as recovery from a slight indisposition he will take his seat in the reichstag and he will speak his views plainly and clearly upon the policy of the government.

The body of Jockey John H. Adams was found at the St. Louis fair grounds yesterday with the throat cut. It was a mortal wound. He died a few days ago, and came to St. Louis from New Orleans about three weeks ago with his employer. Adams was quite well known as a jockey.

Miss Fanny Davenport is suffering from nervous prostration produced by the anxiety caused by her rest and she may not appear again until she plays in Chicago.

The Rev. Dr. Thomas J. Conant, one of the leading Baptist preachers of the day, died at his home in Brooklyn, aged 59. Dr. Conant was the father of S. S. Conant, editor of Harpers Weekly, who suddenly died in 1884. He was the author of many valuable religious works, and his Hebrew grammar is a standard text book.

## WILL BUILD THIS YEAR.

The Northwestern Land and Loan Company Will Put up a Building.

W. B. Silvey, manager of the Northwestern Land and Loan company, returned this morning from a business trip to the East. "I find," said he, "that Eastern capitalists have become a little suspicious about Western securities and investments. This has been caused by the recent failure of two or three loan and investment companies, notably the Winner Investment company of Kansas city. These capitalists are apt to jump in all together in the West and never consider that the conditions and circumstances up here are different from those in the Southwest. It takes a good deal of missionary work to convince them that we do not have to depend wholly on the crops for profits, but I think they are beginning to understand the situation. It is possible that money may be close during the coming summer, but if we get a good crop of grain it will make a deal of difference. There has been some suspicion about stranger legislation, but that is over now."

"I went East to interest money in the Land and Loan company and we shall probably put up a building on Bay View street and Twenty-fourth avenue west. I also did some good work in the East and business on Bay View Heights and you may look for a considerable improvement there."

He said the Duke of Devonshire had been put up a bill in connection with the Duke of Devonshire. There is a conviction among people of our advantage that it used to be. Duluth is hardly ever spoken of now in connection with the Duke of Devonshire. There is a conviction that it has a name that is known for itself alone.

## FORM GOVERNMENT.

Chilian Revolutionists Are Marching Upon Valparaiso Where Severe Battle is Sure.

They Planned to Capture the Capital and Seize the President's Body.

Provisional Government Already Formed by Them in Eight Large Captured Provinces.

New York, May 2.—The Herald this morning publishes under date of April 1, a letter from Santiago, Chili, which states that documents taken from several prisoners captured at Valparaiso show that a bold plan had been prepared to capture the city and incidentally President Balmaceda and the cabinet.

A rebel cruiser accompanied by several transports loaded with troops, was to have sailed into the port of Valparaiso, where an officer was to go ashore with a flag of truce. He was directed to say that he and his followers had come to surrender to the government. The government was supposed to have naturally have the troops landed and thus about 3000 rebels would be distributed about the city. Balmaceda was expected in Valparaiso about Feb. 28, and on his arrival the rebels were to revolt and surprise the city. Balmaceda and his ministers were to be captured. As many of the government troops at Valparaiso are known to be ripe for a revolt the rebels counted on their assistance.

This newly-laid plan was frustrated by the capture of the documents. As Valparaiso is known to be the objective point of the revolutionists the story is generally credited.

News has been received that the city of Coquimbo has surrendered to the insurgents. The city was stormed by the land and sea forces at the same time the fleet in the harbor kept up a constant fire. The consequence was that it was forced to surrender to the rebels. The rebel troops are within a few miles of Valparaiso. Reinforcements have been sent by the government to that city, as a battle will be fought there as soon as the rebels are ready to attack.

The Chilean revolution party in Paris has presented to the French government a notification to the effect that the provisional junta, or government for ministers and congressmen who are opposed to Balmaceda, has been established for the administration of affairs in the eight Chilean provinces which are now in the possession in the revolutionists.

## HOLDEN WILL LIVE.

The Minnesota Murderer Will Not Hang But Live in Still-water.

ST. PAUL, May 2.—Governor Merriam has commuted the sentence of Clifford Holden, of Redwood Falls, under sentence of death, to imprisonment for life. He was to have been hanged a month ago, but the governor gave a reprieve for thirty days. The evidence furnished by the defense, which has all along looked for an escape from the death penalty.

## TODAY'S FIRES.

Bad Ones at Scranton and Johnston; Blazes Elsewhere.

SCRANTON, Pa., May 2.—The electric car stables here were set on fire this morning at 1 o'clock by some unknown incendiary and the building was soon consumed, much valuable machinery and cars being destroyed. The fire started at 10 o'clock and it was not until 11 o'clock that the fire was saved after a desperate struggle. The office of the Republican then caught and so rapid was the spread of the flames that the printers at work had to flee from their presses. The magnificent building was consumed. The financial loss will reach \$250,000, well insured.

A Minnesota Village.  
MINNEAPOLIS, May 2.—A Journal special from Lyle, Minn., says a big fire is raging in that town and threatens to burn the whole village. It started at 10 o'clock this morning and has burned the Milwaukee & St. Paul depot, the elevator and many other buildings. The Kansas City depot is now threatened. The Austin fire department has been called upon for assistance.

Other Fires.  
Marquette, Me.—J. O'Connell & Sons' shoe factory on Howard street was destroyed by fire this morning. The loss is estimated at \$75,000. The firm employed about 200 hands.

Madrid.—The shipbuilding yards of Rivas & Palmer at Bilbao were yesterday damaged to the extent of \$500,000 by a fire supposed to have been of incendiary origin.

Johnstown, Pa.—Shortly after midnight a fire broke out in the heart of the city and destroyed the St. Paul & Duluth road, the body of Nicholas Peterson was discovered in his shanty. He was last seen alive last Monday and received \$180, of which no trace could be found.

## KILLED AND ROBBED.

A Dweller at Sturgeon Lake Whose Murderer is Said to be in Duluth.

News came to Duluth this morning that yesterday, near the village of Sturgeon Lake, on the St. Paul & Duluth road, the body of Nicholas Peterson was discovered in his shanty. He was last seen alive last Monday and received \$180, of which no trace could be found.

The coroner held an inquest last night and quickly rendered a verdict of murder. Suspicion rests on a young man who was hanging around Monday but he has not been seen since. It is believed he has come to Duluth and a watch is being set. It is hardly probable that he will be caught as the descriptions given are very meagre.

Local Bank Clearings.  
The local bank clearing for today were \$286,609.91, for the week ending yesterday were \$1,850,068.68, while for the month of April they were \$6,892,899.29.

## DEDICATE A CHURCH.

The New German Catholic Church Consecrated May 10.

Sunday May 10 will be an eventful day for the German Catholics of Duluth. On that date will occur the formal dedication of the church, recently purchased from the First Presbyterian society, and one of the largest gatherings of Catholics ever seen at the head of the lakes is expected. English, German, Irish, Polish and French societies from Duluth and West Duluth will assemble at the pro-cathedral at 9 o'clock a. m. and form in line of march. The Polish band will accompany the processions which will proceed to the church on Second street where the services proper will occur.

Promptly at 10 o'clock Right Rev. Bishop McGorick will open the exercise by bestowing his blessings upon the church. This will be followed by solemn high mass with Father Kosmerl, the pastor. At the close of the mass the Bishop McGorick will deliver a dedicatory address in English and a prominent priest from St. Paul's similar sermon in German. At 10 o'clock dinner will be served at the St. Louis hotel. Clergy and laymen are especially invited, as this feature of the day will be made as entertaining and pleasant as possible. Solemn benediction will be pronounced at the church at evening service, and the structure will henceforth be dedicated as a sanctuary for the local German Catholic society.

## THE LAKE ROUTE.

Wheat Movement So Far From Duluth; the Dixon at Port Arthur.

Three days ago navigation was opened by the arrival of the first boat and since then the wheat movement out of Duluth has been rapid, amounting to 468,800 bushels. Of this the Stika took on 60,000; the 104, 86,000; the 102, 78,000; the 100, 81,800; the 110, 81,800, and the 111, 81,800. All of this is destined for Buffalo. It is stated that arrangements have been made to ship 3,000,000 bushels out of here within the next few days, and vessels will be accordingly be used in the grain trade as fast as they will arrive here. May will see nearly all of the wheat taken out of the Duluth harbors.

## The Two Harbors Ore Movement.

Ore is coming down to Two Harbors at a pretty rapid rate just now, and one week from next Monday when the first shipment will be made the docks will be full and several trains of cars will be in waiting. Up to the night of Thursday, April 30, 26,929 tons had been recorded at Two Harbors, of which 10,835 had been shipped during the week. The total receipts for the corresponding period last year were 54,041 tons, of which 29,215 tons were in dock on April 10, and 24,726 tons had been shipped. This record was possible from the fact that shipments had commenced a full month earlier than usual.

## Into Port Arthur.

The Dixon returned this morning from her first trip down the lake. Contrary to expectations the boat was able to get to Port Arthur, and after leaving last night she did so. A little ice was found along the shore, but Thunder Bay was open and ready. The Dixon was the first arrival of the year at the Canadian town.

## Sault Passages Today.

Sault Ste. Marie, May 2.—[Special to The Herald.]—Up yesterday: Chas. Hibbard, Aloha, Anna Nell Wilson, 2 p.m.; Wm. F. Sauber, St. Lawrence, 7. Today: Brazil, 6 a. m.; Northern Wave, 6; Geo. T. Hope, 8; Buffalo, 9; Badger State, 12 noon. Robert Holland, S. M. Stevenson, Parana, 1 p. m.

## The Log Book.

The James S. Colby passed out through the Duluth entry at 1.30 p. m. today for a trial trip of a few miles. Among those who went out in her was Frank L. Dyer of Washington, who looks after Capt. McDougall's patent affairs at Washington.

Today the steamer, the steamer E. C. Pope was launched at Cleveland, the steamer E. C. Pope at Wyandotte, one of Davidson's "Big Four" steamers at West Bay City, and the two halves of the Keweenaw, built for ocean service also at Bay City by Wheeler.

Masters of Anchor Line steamers running to Duluth are as follows: India, W. Smith; China, Charles Christy; Japan, R. Smith; Winslow, C. Mason; Grand Campbell, George Green; Capt. Christy sailed the Delaware last season, Capt. Mason the Conemaugh.

The big steel steamer, E. C. Pope, was launched at the Wyandotte yard of the Detroit Drydock company this afternoon. The Pope is 387 feet over all, 42 feet beam and 24 feet hold. Capt. George Wilson will sail her.

It is understood that the fine passenger steamer Nyack, belonging to the Union Steamboat company, will run this season as previous to last year in the Lake Superior Transit line. She will be commanded by Capt. Thomas Judd. Her former master, Capt. Rhyan, is on the Moran, of Ward line.

Business Chances at Grand Rapids.  
Editor Herald: With the growth of Grand Rapids which is now assured beyond all peradventure, fine openings out from this time on, be found there in all legitimate lines of business; but it may interest some of the readers of The Herald who are looking for an opportunity of bettering their condition, to know that there is an immediate and an urgent demand there at the present moment for the following:

A good, competent lawyer, a first class physician, a tailor, a boot and shoemaker, a jeweler, a clothier, a harnessmaker, a furniture dealer, a baker, a druggist, and a man who has the necessary appliances for boring wells.

Towards the list of the month, a number of additional carpenters, masons, plasterers, painters and dry laborers will also be needed. There is also a fine opening there for a bank, an additional lumber yard, a laundry and two or three really first-class boarding houses; but the latter would have to be built, everything there in the shape of a house already crowded to its utmost capacity.

In this connection I beg leave to say that in my opinion Grand Rapids offers greater inducements today to men of energy and enterprise, either with or without capital, than any other point in the whole Northwest.

## STRIKING FOR \$2.

Three Hundred and Fifty Duluth Laboring Men Begin the Season's Strikes Early.

They Want an Even \$2 a Day Even While Many Are Still Unemployed.

A Demonstration With Flags and Banners to be Had Very Soon.

There is a good sized strike on in Duluth today. It was inaugurated yesterday afternoon by Zimmerman & Trax's men on Second street, who demanded \$1.75 a day. The contractors informed them that they would pay them \$1.75 after the 15th, but the men would not listen. The men employed by Cooper & Davis on the West Second street contract for the most part joined.

This morning not one of the 200 men employed on west and contracts went to work. Instead, they gathered, headed by a couple of flags and proceeded over Third street to the east end to endeavor to cause a general strike. The demonstrators employed on the Emerson school joined the ranks, but the stone masons on that contract remained at work. A few of the men employed by Zimmerman & Trax on Second street, just back of the Edison school, Cooper & Davis' twenty-five men on East First street and every man employed by Superior street contract quit work, bringing the total number of men out of employment up to over 350.

The demands of the men were increased today from \$1.75 to \$2. There is some chance that they will be offered \$1.75 rate on Monday. The men also demand to be paid every two weeks. It is understood that transparencies and signs are being made in preparation for a grand demonstration.

## MONTHLY REPORTS.

The Best Fire and Health Records Ever Known; Other Records.

In his report this afternoon Fire Chief Smith stated that during April there were but six alarms sent in and the total destruction of property by fire was \$20, the value of property attacked being \$25,000. The fire loss for the month is the smallest since the city has had a paid department.

The health report for the month of April will show a total of about twenty-six deaths and a death rate of about 7.68 per 1000. Deaths for the corresponding month of 1890 were 17.

In April the mean barometer at the Duluth signal station was 30, the highest was 30.47 and the lowest 29.35; mean temperature was 38, highest 81, on the 29th, and lowest 11. The total excess of temperature during the month was 49 degrees and the excess since Jan. 1 has been 25 degrees. The prevailing direction of the wind was northeast, the total movement 5109 miles, extreme velocity 81 miles an hour. Total rainfall 1.81 inches; deficiency for the month, 1.53; excess since Jan. 1, 1.67. Number clear days, 19; cloudy, 11. Thunderstorms occurred on the 13th and 14th.

The total number of arrests made last month was 170, as compared to 134 for the month of 1890. The chief offenses and the number of arrests were: Assault in third degree, 7; drunk, 78; keeping house of ill-fame, 12; petit larceny, 6; obstructing streets, 4; trespassing in teams of ill-fame, 8; violating liquor ordinance, 15; vagrancy, 10; trespassers, 11.

## Land Office Business.

Following is a summary of the land office business for April, 1891:

	No.	Acres.	Consideration.
Cash entries	12	31,041	\$1,117.25
Final homesteads	2	32	12.00
Homesteads	54	7,125.41	722.40
Military bounty warrant	2	32	4.00
Declaratory statements	5	50	50.00
Land and proof	94	3,068.15	\$1,992.50

The entries were about double those of 1890.

## THE CAR SERVICE.

The New Association Getting Detentions to a Fine Point.

Chairman James Kelly, of the Lake Superior Car Service association, has completed the returns for April from the different railroads centering at the head of the lake. The following table shows the number of cars handled by railroads at each town:

	Duluth.	Superior.	Total.
St. Paul & Duluth	1,279	426	1,705
Omaha	20	50	70
Northern Pacific	20	50	70
Wisconsin Central	1,412	1,587	2,999
Duluth & Iron Range	106	106	212
Eastern Minn.	1,584	2,006	3,590
Duluth & St. Louis	1	1	2
Duluth, S. & A.	1	1	2
Total	4,600	4,859	9,459

The number of days during which cars were detained amounted to 11,928 and the number of days which each car averaged was only 1.26, a fine showing as compared with previous months. Following is the record of previous months:

	Cars.	Days.	P. Ct.
November	11,392	16,291	1.44
December	11,292	15,292	1.35
January	6,926	9,214	1.34
February	5,828	7,521	1.29
March	5,917	10,082	1.70

Following is a statement of last month's business in the principal commodities for both towns: Coal, 33,567; wheat, 17,654; lumber, 675; brick, tile and sewer pipe, 398; hay, flour and mill stuffs, 380. It should not be inferred from this report that this is all of the business of the railroads, as no account is taken of considerable business handled by several of the roads for steamship companies.

## Over in Cleveland.

CLEVELAND, May 2.—The labor troubles in this city are strikingly over. Early this morning the striking lumberhandlers began returning to work individually at the terms of the employers, and at noon business had been revived in all the yards. The police are still guarding the men who have gone to work, but no further riotous demonstrations are anticipated.

# AT DULUTH THEATERS.

A list of the Attractions—Save One—That Are to be Presented at the Lyceum.

May at Temple Opera, the Mouth Well Filled, Wards and Bowers to Lead.

Julia Marlowe an Early Attraction; the Saturday Club's Wednesday Musical Entertainment.

Manager Geo. B. Haycock has practically filled his available dates for the opening season of the Lyceum theater. It will be a very short season, lasting only from May 18 to June 17, but it will furnish fine attractions. From May 18 to 23 inclusive the Bostonians will hold forth nightly, provided the theater can be made ready in time. On the 26th Cleveland's Consolidated minstrels will appear, and on the 28th and 29th Melba and Prescott. These two actresses, however, will appear in the grand spectacular production of "Cleopatra," which they bring from the Standard theater at New York.

In June the first attraction will probably be Neil Burgess in "County Fair," which he brings direct from the Union Square. His opening performance will be on the 3d and he will remain here four nights. The theater will be used on the 10th for the High school graduation exercises and on the 11th and 12th for the production of the oratorio "Messiah" by local talent. The closing engagement will be that of Hermann, the magician, who will appear on the 16th and 17th.

There is some talk that the theater will hardly be ready for occupancy by the 18th. It is to be hoped that the absence of a few of the unimportant finishing touches will not keep Duluth from enjoying the grand treat which the Bostonians can afford. It is seldom that theaters are finished when they are opened, and the theater-going public rarely have the opportunity to find, because the opening performance is generally one of unusual excellence. The reputation of the Bostonians is this year better than ever, and the new opera, "Robin Hood," is being praised by the press all over the country. A Western paper has the following to say of it: "C. Barnabee's High Sheriff, in 'Robin Hood,' is an excellent comedy characterization. Mr. Barnabee's performance is so richly humorous that it is hard to single out its innumerable fine points. This work in his opinion seems to take especially well, however, and the tinker's shop is only allowed to subsidize from sheer exhaustion."

Among the attractions that are to appear at the Lyceum but for which dates are not definitely decided is Miss Julia Marlowe, the young actress who is making such a decided hit in "As You Like It." The New York World on April 8 made the following comment on her acting: "Her performance was made interesting by modest intelligence and by special fitness of temperance and energy. She has been before the public now long enough to have her status fixed. She brought to all her impetuousness, her gentleness of mental equipment and the gentle charm of personality that many of the most popular and successful actresses did not possess. The discovery of these qualities was instantly made when she played Parthenia, and they were again acknowledged in the balcony scene of 'Romeo and Juliet.'"

**The Warde-Bowens.** Monday and Tuesday evenings next Frederick Warde and Mrs. Bowers, supported by what is said to be an excellent company, will play "Henry the Eighth" and "Macbeth." Of them the Chicago Times says: "Whether it was the personal popularity of Warde and Mrs. D. P. Bowers, or the fact that they appeared in one of Shakespeare's plays rarely seen, is not plain, but they were greeted last evening by one of the largest audiences seen for many days. The play was 'Henry the Eighth.' Mr. Warde appeared as Cardinal Wolsey, and Mrs. Bowers as Queen Katherine. The play was necessarily arranged to suit modern requirements, as present-day audiences are not so much interested in the historical and, at times, the enthusiasm of the audience. The costumes had the merit of being historically correct, as far as possible. On the whole, the presentation was a pleasing one to the large audience, and the applause was not stinted. Mr. Warde is a careful and conscientious actor of the declamatory school, and with a clear, resonant voice. He was seen at his best upon the realization of his fall from greatness. His characterization was an all-absorbing and powerful one. Mrs. Bowers was a typical queen, and did credit to her reputation."

**May at the Temple.** May will be a busy month at the Temple Opera and no less than thirteen attractions will play there during the month. Tonight is the last appearance of the "Dark Secret," and Monday and Tuesday evenings Warde and Bowers will appear. The second week the Duluth Minstrels will appear, and the organization will be known to need an introduction, is booked for two nights. Temple Opera will then be dark until the week following, when Helen and Hart, in "Later On" and the well known production, "The Sisters," are on for two nights each. The third week will be taken up by Charles A. Gardner in "Fatherland," two nights, and David Munn, the violin virtuoso, one night appearance. The last week has a treat in the shape of the production of "Faust," by Lewis Morrison, who is said to be aided by some good talent. "Faust" is looked for two nights only.

**The Saturday Club.** Next Wednesday's music program to be given by the Saturday club as printed in the Herald last evening held fair to be a real treat to all who attend. In the list of those who take part are many of the best musicians in a city which is acknowledged to have many cultured vocalists and instrumentalists, and the club intends to make the entertainment a thorough success. It is a sort of annual affair and the ladies are on their mettle.

**The Select Knights.** The Legion of Select Knights A. O. U. W. organized last Saturday, will hold its first meeting this evening in the Haycock building. The following is the list of officers: Fred Bennett, commander; E. D. Baker, vice-commander; Chas. Silvers, lieutenant commander; J. M. Beins, standard bearer; Fred Koors, recorder; B. G. Howard, treasurer; S. Anderson, armorer; Jos. Guster, senior workman; A. Rehbein, A. O. Sweeny, guard of honor; Thos. McGill, past commander. The legion especially invites members of the old legion as well as all members of the A. O. U. W. to come in with them.

**Call and Buy.** N. J. Upham & Co., 102 Palladio building, have a few choice selections of hats left on St. Louis avenue, which they are offering at very reasonable terms. Call at once and buy.

## GRANT MONUMENT FUND.

Grand Musical Festival in Madison Square Garden.

New York, May 2.—The great amphitheater of the Madison Square Garden was packed to suffocation this afternoon on the occasion of the production of S. G. Pratt's musical festival of "An Allegory of the War in Song," in aid of the Grant monument fund. On the stage there were over 3000 singers, the band and orchestra were numbered by hundreds and the soldiers, Grand Army veterans, were reviewed by Generals Howard, Sikes, Sigel, Nugent and Carl Schurz.

The allegory was magnificent. The soldiers were seen marching to the front and disappearing, imagination and music were brought into play by the intermingling of the melodies of the North and South, then the end of the war, the proclamation of peace, the troops marching home and the singing of "America" by the audience as a finale.

**POLISH CENTENNIAL.** How it Will be Celebrated in Chicago.

CHICAGO, May 2.—Tomorrow is the one hundredth anniversary of the adoption of the constitution of Poland. Chicago has been chosen as the central point where all the Polish societies will be represented. That afternoon there will be a mass meeting in Central Music hall at which all the dress will be and in which every Polish Catholic church in the city. The new \$100,000 Polish church hall, theater and turning school will be formally dedicated. The celebration, which takes the form of enacting an historical drama, will occupy three days.

**Michigan Is In It.** Lansing, Mich., May 2.—In view of the tour of the committee of the United States senate, which is investigating the feasibility of more intimate trade relations with Canada and is just now taking testimony in Detroit, the legislature yesterday unanimously adopted resolutions stating that "we observe with pleasure the efforts being made and are hopeful that the ultimate result will tend to bind more common civilization, between whom exist so many ties of kindred origin, tradition, language and jurisprudence, and whose mutual interests will be substantially lessened of unwise trade restrictions which retard development and obstruct human progress."

**There Was Anguish, Just the Same.** NEWARK, N. J., May 2.—The noted case of Young against the Western Union Telegraph company for \$10,000 damages ended yesterday by Young paying the company, which had been claiming that his wife's illness was not delivered to him for three days, and that in the meantime his wife died. He sued for damages for mental anguish. He won his case in a lower court, but the supreme court granted a new trial. The telegraph company secured evidence that the woman was not Young's wife but that he had deserted his first wife for her.

**The Champion Sleeper.** PRINCETON, N. J., May 2.—After sleeping almost steadily for 100 hours, Frank Gray, the champion at Southampton, awoke at about 1 a. m. yesterday. When told of the length of time he had been sleeping he was very incredulous and said that it seemed but a few hours. He had no recollection of any of the attempts of the doctors to awake him. He was about as usual yesterday, but complained of feeling a little weak.

**A Wound-Up Hatch.** DEER HATCH, Ind., May 2.—"Old Hatch" arrived here last night from Evansville. He had been drinking beer on the train and quarreled with the porter about the price. He left the train here although he had been ticketed for Chicago. An effort was made to have him reboard the train, but he refused and was taken to a local jail. No trace has been found of him since.

**Burned by Molten Steel.** BROOKTON, Mass., May 2.—The carpenter and joiners who went on strike yesterday held a meeting last night. The men demanded that they be paid \$3 per day. The local unions have pledged their support and the men will make a strong fight. About 300 men are affected.

**England Moving Too.** LONDON, May 2.—Lord Dunsford yesterday presided over a meeting at which a resolution was adopted to form an association to prevent the immigration of destitute aliens. Speeches were made by Howard Vincent, Arnold White and others.

**Ousting Bad Aldermen.** SCRANTON, Pa., May 2.—The investigation of the charges of bribery brought against Councilmen Golden, McGrath, Kelly and Weichel has been concluded and the committee unanimously report that their seats be declared vacant.

**Bismarck's Majority.** BERLIN, May 2.—Complete returns from the election in the Gesteemunde, Hanover district, for a member of the Reichstag give the following result: Bismarck, 10,544; Schmiedel, 5466.

**Fish Commissioners.** Governor Merriam returned to St. Paul from Duluth yesterday, and at once announced the appointment of A. P. Sweeney of Duluth and W. S. Timberlake of St. Paul, as a fish commission created by an act of the recent legislature. Dr. Sweeney has been on the board for seven years and himself and Mr. Bird are reappointees.

## WEST DULUTH.

The summer term of the school on Bay View Heights will open Monday.

James Dresden has secured the contract for the erection of the Jamison building on Grand avenue.

Mrs. W. H. Gray and family returned this morning from New Brunswick, where they spent the winter.

J. J. Mack has moved to South Superior where he will keep books for Seager & Gunniss at their brick yard located at that place.

Last night's entertainments in the congregational and baptist churches were very enjoyable affairs, and the attendance at both places was good.

A. McKnight, while at work on the West Duluth Land company's dredge this morning, had his foot badly cut by a falling chain, entirely severing one toe and cutting two others nearly off.

Three small boys started a fire under the bridge near the Harwood factory yesterday afternoon, and but for the yesterday arrival of some men, there would have been another big blaze in West Duluth.

There is a chance for some tobacco dealers at this place to get into serious difficulty. Every day small boys 6 to 12 years of age may be seen on our streets smoking cigarettes and hanging about the stores and sheds, striking matches and smoking. This practice will result in a big fire some day and then the law will be enforced. For the dealers' benefit we will say that no tobacco can be sold to a person under 16.

**Church Announcements.** Presbyterian—Morning subject, "Saved by Grace Alone"; evening subject, "Saved by the Uttermost." Baptist—Morning subject, "Hear Ye Him"; evening sermon on "Pilgrim's Progress," illustrated by stereopticon.

**Methodist.**—Morning subject, "The General Rules of the Church and the Reception of Members into Full Communion"; evening subject, "Needed Preparation."

**Congregational.**—Morning subject, "A Threefold Aspect of the Church"; evening subject, "A Contrast." Evening service during the summer will commence at 8 o'clock.

One hundred jackets, refiners and blazers at 25c per dozen to \$12 a suit. New York cash store, Hoyt block, Fourth street north, West Duluth.

Two houses for sale on Second avenue in West Duluth near depot, \$2000 each, half cash, balance in three years. U. S. G. SHARP & CO., West Duluth.

Look out for the announcement of C. W. Elston & Bros' grand opening to take place in the new store on Central E. street. They will carry the most complete line of shoes and furnishings goods in the city.

Chattel loans and short time paper wanted at room 11, Silver block, West Duluth. F. C. DENNETT.

**West End.** D. W. Noel, the west end drayman, has sold his property on the hill and moved down to 123 West Superior street.

New machinery is being put into the water power ash, door and blind factory, between Twenty-fourth and Twenty-fifth streets, and the factory will be about to start up next week with largely increased facilities.

The National Iron Works company have leased the old shop factory on Michigan street to Kelly & Co., and it is being fitted up for a first-class wood-working shop. They will do the sawing, and in short will be prepared to do all kinds of wood-working.

**Tower to Have a High School.** T. H. Steltz, superintendent of county schools, has been making a tour of the reports that the people of Tower are about to take steps to build a fine brick high school, which will cost at least \$20,000. During the year an additional teacher has been employed in the Tower schools. The schools in Tower proper were held in the school building, while in Soudan they number two and four respectively. Ely has an additional teacher there in a building. The schools in both places are in excellent condition.

The east end is attracting attention from the real estate dealers residing here. Call on C. H. Graves & Co. before buying.

**Children Cry for Pitcher's Castoria.** Desirable Property in London Addition.

I am sole agent for a large amount of property in London which I will sell at reasonable prices and on terms to suit purchasers. The property is sure to advance in price at an early day.

**Something About Dollars.** The dollar sign (\$) is not a monogram of "U. S." but dates from the days when the transfer was made from Spanish-American dollars and accounts were kept in dollars and cents. Thus: One dollar's real. A single line is placed between the perpendicular parallel lines; then the perpendicular lines crossed the eight and combined with it to form the present sign (\$).

But the origin of the dollar mark is so important a question as how to get the dollars and how to get the most out of them afterwards. A great many rules for becoming wealthy have been given, and John Jacob Astor's "Cut down your expenses and let your income run up" is as good as any. We can, however, offer some advice on spending the money, especially if you intend to use any of it in traveling. Select "The Burlington" when you want to reach any prominent place in the East, West, North or South. Its luxurious equipment, fast time and easy connections will convince you that it gives you the most for your money. Any ticket agent can sell you tickets by this line, or you can address W. J. C. Kenyon, general passenger agent, C. B. & N. R. R. St. Paul, Minn.

C. H. Graves & Co. are offering special inducements to parties wishing to build in Endion.

When Baby was sick, we gave her Castoria. When she became a Child, she cried for Castoria. When she became a Girl, she clung to Castoria. When she became a Woman, she gave to Castoria.

## CITY BRIEFS.

Professor R. E. Evans has introduced a new dance known as the "Florence" waltz.

Fires are being driven today for the harbor range lights along the channel to Superior.

The Round Table will discuss the question of immigration at its meeting on Monday, May 4, at 8 p. m.

Trailing arbutus is the principal attraction on Park Point and seashore after the fragrant blossoms are numerous.

S. L. Rice, city engineer for Lakeside, will hereafter make the Lakeside Land company's office in this city, his headquarters.

Sale of seats opened today for the Ward Bowers Shakespearean engagement at Temple Opera Monday and Tuesday evening.

W. A. Carpenter has been appointed general freight and passenger agent of the Eastern Minnesota railway, in place of E. F. Dodge.

J. L. McIntire has returned Buffalo. A telegram from his brother to E. L. McIntire states that he is feeling about the same as he did when he left Duluth.

At midnight fire broke out in the rear end of the Rising Sun hotel on Lake avenue south, but very little injury was done. The cause of the fire is unknown.

A brakeman in the Omaha yards named Judson had his right hand caught while making a coupling yesterday, losing a couple of fingers and badly injuring the others.

Professor Evans' party at Temple Opera last evening was a pleasant one. Patrons of the dancing school attended. Next Friday evening another German will be given.

Duluth Yacht club will hold its second annual meeting Monday afternoon at 5 o'clock at the office of W. C. Sargent. The election of officers and other business of importance will come up for transaction.

The Ladies Aid society of the unitarian society gave a social at the church last evening. A program, consisting of a short face and music, was presented and very enthusiastically received. Refreshments were served at the close.

J. W. Earl, well known in Duluth real estate circles, will open an office Monday in No. 331, Chamber of Commerce building under the style of Earl & Co. The new firm will do a general loan, investment and insurance business.

Today the business offices of the Duluth Novelty and Plastics company were removed from the Fergusson building to the factory building, corner of Grand street and Thirteenth avenue west. The factory will be started in about a week.

A meeting of the fire commissioners was held this afternoon. Among other important business which came up was the opening of bids for a new chemical engine, recently ordered by the council. Five representatives of manufacturers presented bids.

The building committee of the board of education opened the bids for the excavation of the new house to be erected in West Duluth. There were five bids in all, but that of McDonald at twenty-five cents per cubic yard for dirt and \$1.50 for stone took the contract.

Postmaster Howard says that a great delay is needlessly caused in the handling of mail intended for our Eastern suburbs for the reason that people will persist in addressing letters to "New London" instead of "Lake View." It should be remembered that there is a New London in the southern part of the state.

The house in which Rev. Chas. A. Poole, of Fairbault, lived was burned to the ground the other day. It was a narrow escape for the family, but having discovered the fire in time, valuables were saved, all else destroyed. The family is now at Rev. Dr. Kedney's. Mr. Poole was rector of St. Paul's church here for six years.

The travel on the motor line in the past three days has been unusually heavy and there will doubtless be a great rush tomorrow. The company is not yet in the best shape to handle the traffic, considerable ballasting having yet to be done to the track and some switches remaining to be put in, as well as some improvements to the power being necessary before everything will be perfect. Tomorrow's crowd will be taken care of as the company can, but it may not be possible to run either enough cars or to make as frequent trips as the crowd will demand.

Admirers of pastel or crayon work should visit No. 20 East Superior street. The Healey & Johnson Portrait company have on exhibition there a very fine collection of portraits done in India ink, crayon, water colors and pastel. The latter notably, taken from the photograph are reproduced in the most artistic manner. Prices reasonable.

Mortgages bought. Collateral and short time loans wanted. CLARK & FAIRBANKS.

We buy notes and short time paper. Also purchase money mortgages. CLARK & FAIRBANKS, 402 Palladio building.

## THE OTHER SIDE.

What the Laundrymen Have to Say Regarding the New Cash System.

Beginning with May 1 the American laundry in the city have begun their new plan of C. O. D., according to the agreement among themselves, published some time ago. While the public generally has looked upon the matter as being one fair to the laundrymen, as a cash plan would be in any business, there are some who seem to think it is for their customers. The laundrymen have nothing in time or convenience by collecting on delivery—it simply gives them the safeguard of not losing anything, an important item to be considered where there are so large a number of small bills.

THE NORTHWESTERN CLOTHING HOUSE.

Removal to New and Commodious Quarters at 209 West Superior Street.

Monday morning the old and well-established Northwestern Clothing house will remove to its new quarters, 209 West Superior street, and the great bargain days of the past few weeks will be at an end for the present. The new store is in one of the best locations in the city, and Mr. Bondy intends to carry a stock second to none in the Northwest. The store will be closed for a few days to arrange the new goods, and on its reopening will present a line of clothing and gentlemen's furnishings goods that will not be rivaled. New goods are arriving constantly and intending purchasers should wait to see them. They represent the latest spring and summer styles. The name of Bondy's Northwestern Clothing house has a good record with a large and growing class of customers and the new store will without doubt add a goodly sized army to the list.

## THE MARKETS.

Stocks Slightly Higher, Wheat Quiet and Heavy, Bank Reserves Increased.

Duluth wheat closes the week quiet and rather heavy, with prices 2½c to 2½c below last Saturday's close and to above the lowest figures of the week. Today's weakness was due to lower cables, bright weather in England and in this country and to general selling in Chicago. The latter firming up was on report of export business at New York. Local receipts for the week were about 310,000 bu., of which 60,000 bu. went to the mills. As near as can be estimated today shipments will foot up about 420,000 bu., making a decrease in stocks of about 170,000 bu.

Cash No. 1 hard closed at \$1.07½. Cash 1 northern, closed at \$1.07½. Cash 2 northern, closed at \$1.07½. May 1 hard closed at \$1.10 sellers. May 1 northern opened at \$1.08½, declined to \$1.07½, without sales, recovered to \$1.08 and closed. June 1 hard closed at \$1.13½ and closed \$1.09½ sellers. June 1 northern sold at \$1.09 and closed \$1.09½ sellers. July 1 hard closed without sales at \$1.12. July 1 northern first sold late at \$1.09½, advanced and closed at \$1.10.

Local Wheat Movement.

Grain inspection today was 91 cars, 15 No. 1 hard, 52 No. 1 northern, 14 No. 2 northern, 1 No. 3, 1 car no grade, 4 cars 1 white winter, 2 cars gray. Receipts are 23,080 bu wheat; shipments, 160,000 bu wheat, 880 bu barley. Cars on track today, 153. Same day last year, 84.

Chicago Wheat.

Caracas, May 2.—Wheat started out quite weak. All market reports were as favorable as possible. The cable quotations were lower and Duluth and Minneapolis received 227 cars—a large total for season. July started at \$1.05½ and sold at \$1.05½; the close last night was \$1.06½. July corn started at 64½¢ and closed 65½¢. July port, \$13.05; July lard, \$7.02½ and July ribs, \$6.60. Receipts of hogs were 13,000 head, where only 11,000 head were expected.

Following is the close: Wheat, May, \$1.05; July, \$1.04½; Corn, May, 65½¢; July, 65½¢. Oats, May, 52½¢; July, 47½¢. Pork, May, \$12.57½; July, \$12.32½; Lard, May, \$6.65; July, \$6.92½. Ribs, May, \$6.17½; July, \$6.47½.

New York Money and Stocks.

New York, May 2.—Money on call loaned at rates ranging from 3 to 4 per cent. Exchange steady; posted rates, 486½¢; actual rates, 487½¢ for sixty days, and 49 for demand.

Government's stock, currency, 6½, \$1.13 bid; coupon, \$1.30; bid 1½¢; coupon, \$1.10.

The opening was a much smaller one than yesterday. The opening was weak and 9/16 prices began to harden and at a moderate business, advanced steadily. A feature was silver certificates which advanced to 100 at one time. The price subsequently reacted to 99½. The bank statement was favorable, showing an increase of \$99,651.

That Clover Hill Lots are the choicest in the city?

That we are not anxious to sell at the figures we now quote?

That we only ask your attention to it at this time thinking you may be looking for a residence site?

That we want to give you a chance at this choice property only in case you want to build a good house?

That you ought to take the first car over the Motor Line for the purpose of viewing Clover Hill Division?

That you make a mistake if you don't?

That the property itself is its own best argument?

That the prices are so low that we can't afford to sell many lots, even for building, before we advance prices?

The following left last evening for Red Wing as delegates to the Grand lodge of the A. O. U. W.: A. L. Nelson from Rice Point lodge; E. L. Sly, from Fidelity lodge; and Ed Ingalls and H. P. Wieland, from Duluth lodge.

Mrs. J. I. Dow, who has been dangerously ill for some time, died Sunday afternoon. She was the wife of J. T. Dow, the real estate dealer in the First National Bank building, and mother of Misses M. H. and Lulu Dow, all of whom will have the sympathy of a large number of friends.

A young man from Soudan named Johnson, aged about 20 years, left this afternoon on the limited for California via Kansas City. He is afflicted with consumption and goes to Soudan, Berber, in hopes of staying the ravages of the grim destroyer.

Dr. Barrett came down from the range with him and saw him off on his lone journey.

Hon. M. O. Hall left for St. Paul on the limited where the state prison board will meet representatives of insurance companies tonight to adjust the recent loss by fire at the penitentiary. The board will visit St. Paul tomorrow. Mr. Hall states that about 2000 pounds of the very finest binding twine is turned out daily at the prison, the cost being a fraction over nine cents a pound. An effort will be made to reduce the quality, and likewise the cost which is hoped can be made as low as eight cents.

Capt. Robert Smith, of the steamer Japan, was shaking hands with his numerous friends today. He has spent the winter and spring in Paris and the temperate ports. At the time of the New Orleans massacre he was in Rome and witnessed such an excitement as rarely happens anywhere. The captain climbed Vesuvius to within a few feet of crater that a short time before had been pouring forth lava and also spent considerable time at Monte Carlo.

J. H. Upham went to St. Paul this afternoon to attend a meeting of the Soldiers' Home board tomorrow, at which session will be taken to authorize half of the \$105,000 just appropriated for new buildings. The board desires to have the standings ready for the coming winter and so are making an early start. Some of the present building at Minnehaha, though occupied, are in an unfinished and very unsatisfactory condition. This state of things will be remedied at once, thanks to the legislature for a generous appropriation.

## WHEAT BREAKS OFF.

A Tremendous Break in Wheat at All Markets; Stock in Store.

Wheat broke in all markets today, getting down 2 to 2 1/2 below Saturday's close.

The first sale here was 20 lower at \$1.06 for May No. 1 northern, and the weakness continued throughout the day. It was mainly caused by the heavy selling of New York and the absence of demand.

Cables were weaker and lower. When the visible supply report was published, showing the large decrease, there was some recovery. The recovery was nearly lost, then later there was firming up. New York reported late seven loads taken for immediate and twenty for September shipment. Here prices broke sharply near the close, which was quiet and very weak, 3/8 below Saturday's.

Cash No. 1 hard closed at \$1.06; cash 1 northern, a sale early at \$1.05 1/2, closed at \$1.04. Cash northern, closed at \$1.01 1/2. May 2 hard closed at \$1.06 1/2, without sales.

May 1 northern sold at \$1.06, firm up 3/8 broke and closed at \$1.07 1/2. June 1 hard closed at \$1.07 1/2, 1 northern at \$1.05 1/2. July 1 hard closed at \$1.03 1/2, and 1 northern at \$1.06 1/2.

Chicago Wheat.

Chicago, May 4.—There was a little "quack" bulge in wheat, but it was quickly

displaced as soon as the board opened. Selling orders in great profusion were the order of the day, and the market was a natural consequence value ranged much lower. July started at \$1.05 1/2, but quickly slipped down to \$1.03. The break took less than fifteen minutes to accomplish. At the close there was covering of shorts and buying against "rats" which held the market for a short time. There were 385 cars at Minneapolis and 208 cars at Duluth today—two days' receipts.

Following is the close: Wheat, May, \$1.01 1/2; July, \$1.00 1/2. Corn, July, 60 1/2; Pork, July, \$12.25; September, \$12. Lard, July, \$6.82 1/2; September, \$7.10. Hides, July, \$6.37 1/2; September, \$6.66 1/2.

New York Money and Stocks.

New York, May 4.—Money on call at 5 per cent. Exchange quiet; posted rates 48 1/2 @ 49; actual rates, 48 1/2 @ 48 3/4 for sixty days, and 48 3/4 @ 49 for demand. Government's steady; currency, 6 1/2, 113 bid; 4's, coupon, 120 1/2 bid; 4 1/2's, do, 101 bid.

The stock market was moderately active while prices were irregular and in the main weak. The principal trading was in St. Paul, Burlington, Rock Island, Union Pacific, Atchison, Missouri Pacific, Northern Pacific and Wheeling & Lake Erie. Fluctuations for the most part were confined within very narrow ranges.

The Visible Supply.

The visible supply of wheat in this country is decreased for the week 1,333,000 bu. against a decrease of 523,000 bu. for the week last year. Corn increases 660,000 bu. against a decrease of 1,636,000 bu. for the week last year. Oats increase 218,000 bu.

Crops on the Omaha.

H. C. Hope, superintendent of telegraph on the Omaha system, arrived here this morning direct from Omaha. He states that although in some parts seeding has been somewhat delayed, as a whole the country covered by the Omaha system has seeded its fields at an early day. Both in the corn and wheat districts the acreage is fully 25 per cent greater than ever before. The soil is very moist everywhere, so that hoeing frost there is a prospect of the largest and finest crop ever known.

In Police Court.

Eight drunk cases occupied his honor's attention this morning. James Tuley and the Olson paid \$12 each; Wm. Gavall, James Flaherty, John Stephens and Peter Peterson were committed; Gus Ransom and Andrew Johnson paid tickets for \$5 each and were given order to get out of town as soon as possible.

Plans for West Duluth School House.

The school board met this afternoon to consider plans for the proposed West Duluth school building which will cost from \$20,000 to \$40,000. Plans were submitted by H. C. Brown, Stevens & Dennett, Young & Young, F. G. German, A. F. Rudolph, Kritz & Tichart, Oneyer & Thors, Palmer & Hall and McMillan & Rueland. Each architect was given ten minutes to explain his plans.

### THE MATTER.

Because of Harrison's Stand the British are to Join in Suppressing Sealing.

A Great Loss to the Company That Has the Sealeries Contracts.

Result, no Fresh Seal Skins From Alaska For a Few Years.

New York, May 5.—The Herald's Washington special says: "I am informed that Secretary Blaine's proposal for a total suppression of seal catching within Bering sea will be formally communicated to Minister Pannetier today or by Wednesday at the latest.

"Not the least interesting circumstance connected with this new departure is the direct part played in it by President Harrison. It is due to the President's instructions that England is now to be invited to join the United States in stopping the killing of seals on terms equally fair to both parties.

"So little had the President's course been anticipated that the lessees of the Pribilof islands had made all their arrangements for a busy season. Their vessels and men are ready to start from San Francisco. The treasury agent who watched the catch had been designated. The loss to the government, the lessees and the natives if there should be a total stoppage of seal killing this year will be great. The fact that President Harrison has determined to face all that loss, and the accompanying disappointment and inconvenience, indicates the serious view he takes of the consequences of an unrestricted policy and an unrestricted pursuit of seal skins in Bering sea this year."

Ottawa.—The statement that the United States government has intimated that there would be no interference on the part of American cruisers with British Columbia sealers this season, is denied by Minister of Marine Tupper. He states that the dominion government had given no assurance to the owners of the sealing fleet that their vessels would not be molested, as no such assurance had been asked for.

### NOT SO WONDERFUL.

The Performance of Torpedoes in Chili Not so Important.

SAN FRANCISCO, May 5.—A cable dispatch, dated Iquique, gives an account of the sinking of the insurgent steamer Blanco Encalada in Caldera bay by the torpedo boats Almirante Lynch and Conde. The Blanco Encalada was lying at anchor in a helpless condition, part of her machinery being on shore undergoing repairs. She was unable to move from her position, thus forming a steady target for the government vessels, which steamed around her and discharged torpedoes as they pleased. Even with this great advantage six torpedoes missed their mark and exploded harmlessly. The seventh torpedo, struck the ironclad blowing her up and causing a heavy loss of life. While the result shows a value in Whitehead torpedoes, it by no means bears out the extravagant statements and the fears expressed by naval experts, and it by no means implies a revolution in naval warfare.

Later dispatches from Iquique state that but few lives were lost, as the congressional steamer, Albatros, picked up many of the men from the water. One hour and a half after the torpedo boats sank the Blanco they were beaten off with a heavy fire.

"Two Knocks Monopoly. Chicago, May 4.—The telegraph committee of the board of trade has received a proposition to build a wire line to New York for considerably less than a half million dollars. The route would be through Detroit, Toledo, Buffalo and Rochester. The line is proposed to be operated by members of the New York and Chicago exchanges. It would do all kinds of commercial business, but would pay special attention to business for the exchanges. The proposition is under consideration. The New York Exchange speaks favorably of it.

The Greatest Floods Known. SANTA FE, N. M., May 5.—The Rio Grande is now within a few inches of the highest point in history, and residents are greatly alarmed. The bridges at Albuquerque and Los Lunas are wrecked below Socorro. The river is within a few feet of the Atchison, Topeka & Santa Fe bridge. Above Albuquerque water is devastating fields. There is every prospect of the greatest flood ever known.

Veazey Not Meddling. WASHINGTON, May 5.—Judge Veazey, who has returned from a long trip through the West, denies that he said that in the event of Secretary Proctor's withdrawal from the cabinet, the place would be filled by the appointment of Gen. Alger. What he did say was that Gen. Alger's appointment would give satisfaction. In regard to the Vermont senatorship, Judge Veazey said he was not a candidate.

Ingalls Was Not a Fool. LOUISVILLE, Ky., May 5.—In reference to an alleged interview, published over the country yesterday, ex-Senator Ingalls today sent out this: "The enclosed interview is a fabrication. I saw no reporter at Kansas City and have never been interviewed nor expressed such sentiments at any time as are imputed to me."

A Bark Wrecked. ST. JOHNS, N. F., May 5.—The Swedish bark Sella was wrecked near Howens and will prove a total loss. Only one of the crew was saved, a sailor named Eliason. The vessel is probably from Tonsberg, April 9, for Miramichi.

Colored Fire Bugs. ASTORIA, Pa., May 5.—Bertha Young, white, and John Lines, colored, have been arrested here for incendiarism. The woman confessed yesterday that Russell had started the fire and both were held for trial.

Snow in New York. SARATOGA, N. Y., May 5.—It is very chilly here this morning with some snow. Snow is falling in Adirondacks. The wires there are damaged by last night's wind storm.

### A PRINCIPAL GIFT.

The Great Carnegie Music Hall Opened This Evening.

New York, May 5.—The most important musical event of the year in the life of this city, will be the opening of Carnegie Music hall tonight, for it will mark another epoch in the history of musical culture in America. The hall is located in the very heart of the city and its cost, including the land, has reached a total of \$1,300,000. It is entirely the gift of Andrew Carnegie.

The dedication ceremonies the first of a musical festival will be given. Walter Damrosch will be the conductor, and he will be assisted by the Ontario society, and the Symphony society orchestra. There will also be an imposing array of artists including, Tschakovsky, the eminent Russian composer; Signor Campanini, Herr Emil Fischer, and Madlle. Clementine de Vere.

The hall is an imposing structure of brick with terra cotta trimmings, stately in design and luxurious, and artistic in finish and decoration. It is a broad flight of steps and through a spacious vestibule. The auditorium has a capacity of 2800, while there are spacious ante-rooms and banding halls.

### NEWS OVER SEA.

A Volcano in France; Fearful Scenes of Jewish Suffering in Russia.

PARIS, May 5.—The famous novelist, M. Emile Zola, is among those who condemn the government for the Forinies tragedy. M. Zola declares that, by its bombastic announcing of armed preparations, as if a revolution was imminent, the minds of workmen became excited, and the government assumed a false importance in the eyes of the organizers. The effect, he says, will be to make the government's action will rankle in the hearts of the people and cause them to hate the employing class.

Minister Constant took vigorous measures today to stamp out the anarchist trouble at Forinies. He has approved the action of the committee of the congress in firing upon the mob, and ordered an additional force of cavalry to the scene with instructions to pursue the same vigorous course as on Saturday should there be another outbreak, which is probable.

The women of Forinies and the adjoining villages are more excited than the men, and last evening a large number of them rushed about from house to house, calling upon husbands and brothers to avenge the dead. One woman, whose husband was shot in the massacre, as it is called, dipped her hand in the blood that welled from his side and swore vengeance against the "bourgeois" republic. The excitement is greater than ever.

### THE JEWS.

Heartrending Scenes of Suffering in Russia; Baron Hirsch.

ST. PETERSBURG, May 5.—Terrible scenes attend the expulsion of the Jews from Moscow, Kiev and other places. Many die of misery, and the Jewish settlements are crisscrossed by new arrivals. All speeches and pamphlets favoring the Jews are prohibited. The government is yet in embryo. Baron Hirsch is at present only assisting in sending Jews to the Argentine Republic, although he is looking to other available lands for a large scheme of emigration, the details of which have not yet been considered.

### Riots for Bread.

ROME, May 5.—Owing to a rise in the price of bread at Parma a riot occurred in that city early today. The women turned in procession and marched to the town hall where they demanded from the officials that the latter secure a reduction in price.

### The Ministry Defeated.

LONDON, May 5.—Mr. Morley's report on the London companies, declaring the title in Ireland as merely that of trustees, has been adopted by a parliamentary committee by a majority of two as against the ministerial report in favor of ownership.

### Killed in a Canal.

ESSEX, Prussia, May 5.—A canal is being excavated here and today while the excavation was in progress a large section of earth gave way and crushed a number of men who were at work digging. Five were killed and a number injured.

### Grip in England.

LONDON, May 5.—In Sheffield the influenza epidemic continues unabated. Nottingham has also been attacked by the disease and numerous deaths are reported.

### TODAY'S FIRES.

HALIFAX, N. S.—The timber surrounding this city is burning in at least a dozen different places. Great damage will undoubtedly ensue.

ALBANY.—The engine building of the Troy Steel and Iron company was destroyed by fire. Seven Dickson high power engines were ruined. Loss estimated at \$200,000.

ALBUQUERQUE, N. M.—The Albuquerque Foundry and Machine works were totally destroyed by fire yesterday morning. The fire originated in the boiler room and was so rapid that the work of an incendiary. The loss will probably reach \$200,000.

### The Trouble in Newfoundland.

HALIFAX, May 5.—It is currently reported that the British ship Pelican, now in Newfoundland waters, had been ordered upon by the Newfoundland bait catchers in Fortunate bay.

### Welcome to the Ford.

LIMA, Ohio, May 5.—The Lima Republican has been bought by Cram and McClintock, of the Cleveland Dispatch. Among the new features to be introduced in the United Press reports.

### Removal Notice.

The Ohio Coal company beg to announce that they have removed their city office from the block, 827 West Superior street opposite the St. Louis hotel.

### TRAMP THE FLAG.

Duluth Strikers Get the American Flag Under Their Feet in the Dust.

A Scottdale Funeral to be the Occasion of Much Massing of Coke Strikers.

New York Architectural Iron Workers Still Out; Other Strike News.

The labor situation remains about the same as yesterday. The strikers assembled in large numbers on the hill at the West End for an exchange of thought and then scattered considerably, about 150 forming in line and marching about that part of the city. They passed up Fieldmont avenue carrying the 22-day banner and a yard square American flag. The man bearing the flag, for some unknown cause, threw it in the street where it was trampled in the dust.

This incident aroused Sergeant Thompson, who did some fighting for the stars and stripes long ago, and receiving authority from headquarters he stopped the procession in the open ground between Twenty-seventh and Twenty-eighth avenues west. The leader protested that the men intended no insult, but as it was then noon they quietly dispersed to their homes. The man carrying the banner was slightly intoxicated, but all the others were apparently sober, and no riotous demonstrations were intended. The police anticipated trouble, but thought the treatment of the flag sufficient cause for dispersing the crowd.

The employers seem to be willing to concede \$1.75 a day, and a few gangs of men were at work today for \$1.50. Reilly, the Garfield avenue contractor, tells his men he will pay them for all the time whatever price is agreed upon next week. The strikers are peaceable, but move about wherever work is in progress explaining the situation to the laborers and endeavoring by such means to make the strike general and gain their point.

### AT SCOTSDALE.

A Funeral That Will Call Out Some Trouble.

SCOTSDALE, Pa., May 4.—John Mahan, the striker killed at Leisensburg, Sunday evening, will be buried tomorrow. His funeral will be made the occasion for a general massing of strikers. The forces of deputies are being largely increased at that place today, particularly at Leisensburg No. 8.

Seventy Italian workmen quit at Whitewater's last night and left the mine. Two carloads of foreign workmen arrived at Woodstock last evening and more are expected to arrive today. The sheriff's posse is at Broadford today, continuing the work of evicting the families of strikers. Twenty families will be set out at that place today. This morning a group of five Hungarian workmen who were taken to Leisensburg No. 3 last night, refused to leave and left the region.

Superintendent Gray, Yard Boss Agnew and Deputy Callahan, charged with the murder of Mahan, are being held today. Superintendent Gray was held in \$4000 bail. Callahan and Agnew were discharged.

### Housesmiths Still Out.

NEW YORK, May 5.—The housesmiths' strike situation is unchanged. Many of the striking frames have gone to work with non-union men in German shops. The bosses who yielded are Americans and employ only 300 men, while the German bosses employ over 1200. Nothing new has occurred in the lathers, plasterers or lumber handlers strikes.

Eight Hundred Newark Carpenters. NEWARK, N. J., May 5.—Three hundred Newark carpenters struck today making 800 carpenters now out.

### IS GETTING INTERESTING.

The Chilean Vessels Off San Diego Watched by a Cruiser.

SAN DIEGO, Cal., May 5.—The Chilean steamer Etata is still here taking on a large amount of coal and supplies. The opinion is growing that she is a Chilean transport and is after arms and ammunition for the insurgents which she will get from the schooner Robert and Minnie now lying at Santa Catalina. It was reported yesterday that a German war vessel was lying outside the harbor awaiting the appearance of the Etata. The Mexican warship Demeter has arrived in the harbor. It is believed she was attracted here by the report that the schooner Catalina is a filibustering craft and would call outside the harbor of San Diego for a contingent of Lower California invaders. The Demeter, it is supposed, will watch both vessels.

### Pan American Medics.

WASHINGTON, May 5.—The annual convention of the American Medical association opened here today with a large attendance of delegates. One of the most important subjects to be considered is a proposition that the association shall invite the medical profession of the Western continent to meet in an international American medical congress and permanent organization. The reasons for inaugurating this movement are a desire to discuss such topics as naval hygiene, quarantine regulations and the study of epidemics, etc. The further and especially potent reason which has been cited is the desire for closer fraternal relations between the Spanish and Anglican branches of the medical profession. The proposal has received the hearty endorsement of prominent physicians in North and Central and South America.

### West Virginia Booms.

PARKERSBURG, W. Va., May 5.—Ex-Senator Camden authorized the statement that \$5,000,000 has been raised to spend in railroad building in West Virginia in the next six months. A railroad is to be built to an immense iron ore tract on Potomac which was recently purchased by Mr. Camden and others. The West Virginia and Pittsburgh will also be completed. It is to be built immediately and carried to Pittsburgh.

### UNFORTUNATE NECESSITY.

Denominational Lines Drawn in a School Election.

LEADVILLE, Col., May 5.—One of the most exciting school election contests that ever occurred in this state took place here today. The Patriotic Order, Sons of America and the Catholics took opposite sides in the fight. The outcome of the election is yet in doubt. Hundreds of ladies were at the polls and the excitement was intense.

### A Girl Forger.

ANN ARBOR, Mich., May 5.—Lizzie Alger, a girl of good reputation, has been arrested for attempting to pass forged checks. The checks were alleged to have been made out by David B. Riney, and one of them was presented by the young lady to A. L. Noble for payment. Noble has been caught once or twice by forged checks and in company with the girl he visited Mr. Riney's place of business and the papers were at once declared to be forgeries. An officer was called and Miss Alger was found to have three other checks, aggregating \$100. The officers believe that the job was planned by two men who were thus trying to raise money to elope with this girl and a friend of hers.

### MARINE NEWS.

Two new Duluth Tugs; Stuck in the Bridge; Brief Marine Mention.

The Duluth tug fleet was yesterday increased by the addition of the staunch boat Paige, well-known in this city by reason of her ownership, several years ago, by the Paige-Seixenuth Lumber company of this city. The tug Bennett, on which the Cranberry Lumber company during the winter spent \$8000, will probably be in tomorrow with her first raft.

Several vessels are now overdue here on account of the rough weather on the lower end of the lake and also on Huron. One of the whalebacks, going out, stuck in the Northern Pacific draw bridge this afternoon and delayed trains half an hour.

### New York Troubles.

NEW YORK, May 5.—Judgments amounting to \$229,635 were filed today against the owners of imports at 28 Green street in favor of Andrew Kenig & Co. and others. The First National bank of Connellsville, Pa., obtained judgments today against Jesse H. Luykcock, H. John Robinson and H. Leeds Jr., for \$14,500.48 due on notes. Charles B. Wright, an ex-railroad president, obtained an attachment today against George W. Hunt, of Walla Walla, Wash., for \$21,740 due on a protested note.

### The Snooks-Herr Poisoning.

LOUISVILLE, Ky., May 5.—The grand jury was instructed yesterday to make a full investigation of the poisoned Snook-Herr wedding feast. Dr. Hobson, who has attended ten of the victims, says that the poisoning was caused by arsenic that was put in the water. He also says that it was a deliberate plot to murder the whole party. The police are investigating the case and hope to get at the bottom of the affair by which six people lost their lives.

### Join the Third Party.

CINCINNATI, May 5.—Much surprise was caused yesterday by the announcement that the Knights of Labor in this state have ordered 600 delegates to attend the third party convention the week after next, and that the order had done likewise in many other states. (Over 2000 delegates, it is now claimed, will attend.)

### PEOPLE BY WIRE.

Tschigirin of St. Petersburg, says he will accept the propositions of the Havana Chess club to meet Steinitz over the board at Havana in December. Ex-Governor Crittenden of Kansas City, was stricken last evening with a fatal illness, a blood vessel at the base of the brain being ruptured. Mr. Crittenden served in the Union army during the civil war as lieutenant colonel; was elected to congress in 1872, and again in 1876, and was elected governor of Missouri in 1878. It is regarded very significant that the Kaiser has abandoned his intended visit to Italy and King Humbert, because "Italy is too friendly to France." The greatest discontent prevails in Berlin with the policy of the Marquis Radini, who is regarded as too favorable to France, and too hostile toward Austria, and it is said on semi-official authority that the return of Gispri to power cannot long be delayed.

Gladstone and his associates will promptly take up the case of Newfoundland when the coercion bill comes to the house of commons.

### DELAY TWO WEEKS.

The Formal Opening of the Fine New Lyceum Theater is Delayed Until June 1.

When Neil Burgess in "The County Fair" Will Start the Curtain Up.

Over \$200,000 Ready to be Paid Property Owners Along the Public Parks.

It is now decided that the new Lyceum theater will not present a mimic world upon its stage until Monday, June 1, just two weeks later than was first intended. Chief among the causes of the delay are the labor troubles here and elsewhere, the latter having kept back interior stairways and other needed material until it was so late that the building could not be made ready for the 18th inst. The stairs to the dress circle have not yet arrived, and after they come and are in place there must be a good deal of plastering done, and after that the decorating and finishing. Temporary stairs were talked of to allow the Bostonians to open the house on the 18th, but so much work would then be incomplete it was decided to wait.

As a result the Duluth theater public will not have an opportunity to see and hear the Bostonians this season, nor will the several entertainments booked for the last week in May be given. Neil Burgess, who is to open the house with "The County Fair," a well known and popular play.

### CONSIDERABLE CASH.

Over \$220,000 to be Soon Disbursed for Property Purchases.

The new park commission has been very busy since its appointment, and as soon as Mr. Rogers returns from the East active steps will be taken toward acquiring property and improving the same. The new 4 per cent bonds, which will amount to something like \$222,000, are here awaiting the necessary signatures, and the money for them is lying in a New York bank ready for the exchange.

### RATES RAISED.

Chicago Lines Succeeded in Forcing Duluth Westbound Rates Up.

Another move has been made on the railroad chess board. This time it is that of the Duluth, South Shore & Atlantic, which announces the resumption of rates New York to Duluth, from a basis of thirty-six cents first-class, to \$1.20. This was not done because the South Shore wanted to do it, but because the Chicago lines practically compelled it.

During the winter the South Shore had been doing an enormous business at a \$1.10 rate, which was thirty-five cents less than that via Chicago. The road's traffic increased 300 and 400 per cent over that of last year, and the Chicago roads were so badly injured that they held a meeting and compelled the South Shore to go up to \$1.20, shortly after dropping their own rate to \$1.20. When navigation opened and the lake and rail lines made a rate of ninety cents the South Shore dropped to ninety-six cents, the six cents offsetting the lake insurance.

This rate was made in connection with the West Shore rate. The Ontario & Western learned of it and dropped to the West Shore rate, which brought the matter before the Chicago association once more. The matter has been finally ended in the South Shore's raising to \$1.20, which affords it a differential of ten cents over the Chicago roads. This rate goes into effect on the 12th via the Ontario & Western, and the West Shore connection is temporarily abandoned.

### SOLD A MINE.

The Crown Point Silver Mine Sold by New York.

Last January Tinkham Bros., owners of a large share of the Crown Point silver mine, situated in the Thunder bay district, gave an option on the property to a firm of New York brokers, Simpson & Co. for \$600,000, that being par value on the stock of the mining company. Yesterday the New York people telegraphed Mr. Tinkham that they would take the option and had deposited the money in a bank, and he will leave for the East to close the deal as soon as he can get abstracts, etc. for the property.

About a year ago Messrs. Tinkham, Shannon, Billings, Stearns and Esquig, all of this city, bought of C. A. Cummings, also of Duluth, his mine, the Crown Point, on a basis of \$100,000. Mr. Cummings retaining something like a three-eighths interest. Since then the new company has done some little development. It will be seen that the Duluth men have made a good thing out of the property, though they feel that they have sold at a very low figure when the future of the mine is taken into account.

### Unusual Weather.

WASHINGTON, May 5.—The signal office furnishes the following special bulletin to the press: Unusually cold weather prevailed throughout the entire northern portion of the country east of the Mississippi and Missouri rivers, the line of freezing temperature extending from Southern Maine westward through Western New York and Northern Ohio and including the states of Michigan, Wisconsin, Minnesota and North Dakota. In Southern Michigan the temperature was the lowest on record for this season of the year. The minimum at Detroit was 28 degrees, or 1 degree lower than previously observed during the first decade of May. Severe frosts occurred throughout these regions, possibly causing considerable injury to fruit and early vegetation. Frosts are indicated for tonight through out New England and the middle states, the Ohio valley, Kentucky, Tennessee and the lake regions.

## PATRIOTS, NOT REBELS.

The sympathies of all lovers of representative government must follow the cause of the Chilean insurgents, who are simply striking for the preservation of their rights. The insurgent troops are very properly called the "parliamentary forces" in some of the dispatches, because they are supporting the demands of the Chilean congress for a recognition of the voice of the people.

Balmaceda, the so-called president of Chile, is a dictator who has been slowly but surely revolutionizing the representative form of government in order to establish himself permanently in power. He wants to create what he styles a presidential or one-man power government. Congress has fought his aggressions patiently and persistently, and the troubles in Chile were an old story to the people of the world long before the supporters of congress were forced to rally with arms against the attacks of a designing tyrant.

The Chilean insurgents have a just cause, and although they have before them a long and bitter struggle, they will undoubtedly win. Tyranny cannot root itself on American soil, and no tyrant can breathe American atmosphere very long. Balmaceda is showing the cowardice of the typical tyrant by having his food prepared for him by members of his family. He fears assassination and is showing that fear by a hinting, a measure of relief that some exasperated insurgent may undertake.

## A SCANDINAVIAN OPINION.

Concerning the alliance charges against the Duluth elevators the Duluth Scandias of this week has an editorial in which it says that the charges contain neither more nor less than what might be charged against every wholesale and commission house all the world over. Editor Lange says that he knows enough about the grocery and wine trade in the leading markets of Europe to make comparisons, but he will confine himself to a branch that his readers know best—the fish trade of Norway. It should be remembered that for such articles as herring, dried fish and cod liver oil, Bergen, Norway, is the leading market in Europe.

The Scandia states that at Bergen they have official inspectors, but that every exporter is at liberty to employ an official or his own inspector, the difference being only that if a foreign market any complaint is made against goods shipped on commission, then the stamp of an official inspector is lawful evidence that the goods are of undoubted quality, the exporter will do his own inspecting, but if there may be some doubt he will get an official stamp on every barrel. It is claimed to be quite customary, that herring are "marked up" when they are shipped to foreign markets, the only consideration of the exporter being, that the stamp of his firm is not looked upon with suspicion by having goods reduced to a grade inferior to that he has stamped them for. When herring, cod liver oil, etc., are received in Bergen it is common practice to have them resorted and worked over, so they may be sold again or exported at a better grade, and in Norway nobody complains that such practice is not fair.

Of course they don't. They don't have parties over there who attempt to make political capital by falsely injuring their own state and people.

The United States senate will look considerably disgusted when it meets again next December. Hearst of California and Wilson of Maryland have pitched their tents in the eternal camping ground, Edmunds of Vermont and Reagan of Texas have resigned; Joe Brown, of Georgia and Payne of Ohio have retired full of years and with a handful of laurels; Ingalls, Everts, Spooner, Farwell, Hamilton, Vance, Moody and Pierce have withdrawn by request from the maddening crowd's ignominious state. This is quite a remarkable change and will advance some of the survivors to more prominent positions in committee work and party leadership. Carlisle, Gray, Vest Palmer, Gordon and Dave Hill will lead the demagogue, and will be faced from the other side by Sherman, Allison, Wilson, Wolcott

Teller, Davis and others of nearly equal weight. Wilson of Iowa is the only republican left who can be pitted against Carlisle and Gray in a constitutional debate.

Ex-Senator H. W. Blair, of New Hampshire, who has been declined by the Chinese government as American minister to that kingdom, is one of the most conscientious men in public life. He fought first and last for his Southern educational bill to lighten the treasury and enlighten the colored people, while other senators dodged the issue or wavered back and forth to suit their political fortunes. He credits nearly everything to the Lord and will, if it prove right, look complacently upon his rejection as an act of providence. He is not a time server, although a sweet and successful politician in a minor key, and would creditably represent our government at so important a court. If he would get up and swear a little he would be ranked higher as a statesman and diplomatist.

Dr. Stearns of the Hartford Insane asylum maintains that, in a large proportion of cases, insanity is curable under scientific treatment, and he speaks on this subject with the authority that belongs to knowledge and experience. He states that the cases of insane patients must be studied as closely as the cases of patients afflicted with other maladies, and that scientific methods of cure adapted to the various cases must be rationally applied. He speaks of the great improvement in the treatment of insane people that has been brought about in this country within recent times, and shows that the proportion of cures in insane asylums will now compare favorably with that in general hospitals.

Dispatches from Buenos Ayres state that the Argentine government finding it impossible to secure enough gold to establish a basis for its currency, has adopted a silver standard and will issue notes against reserve silver to be legal tender at par value for all future obligations. Contracts not made in the legal currency will be declared invalid. Such action on the part of South American states will tend through reciprocity with them to liberalize American views on the silver question.

The great need of St. Paul as discovered by Rev. Sam Smith through letters from many cities, and expressed by the Dispatch, is "a more enlarged and thoughtful public spirit." Having made its policy so wide open as to break its back, the city now turns its thoughts to the real factors in a city's prosperity.

The new Irish Sunday closing bill provides that no person shall be deemed a bona fide traveler and entitled to a drink on that day unless he has actually traveled at least six miles or farther than from Duluth to West Superior. What "idiotic" statesmen them. Mostly Britishers be!

## An Excellent Performance.

A very fair audience greeted the Ward-Bowers company in the presentation of "Henry VIII" at Temple opera last night. The excellent rendering of the historic drama was worthy of a crowded house which "Macbeth" will doubtless draw tonight. The mantle of the lamented McCullough in passing to Frederick Ward has fallen upon a worthy successor. Even with the death of Barrett and retirement of Booth, the country will not be destitute of genius on the stage. The impeachment and execution of Buckingham, the pretty mimic, the trial and death of Katherine of Aragon, the fall of Wolsey, and the baptism of Elizabeth displayed the varied powers of the stars and their supporters. The king's well-known weaknesses were happily displayed in his sudden infatuation for Miss Cogswell as Anne Boleyn, which was pardonable, and the vociferous manner in which he adjourned court after the trial of Katherine. In the trial, as later in the death scene, Mrs. Bowers gave evidence of the highest dramatic art, and Mr. Ward in the fall of Wolsey was a real cardinal in all the agony and grandeur of a great soul. The support was good and the costuming quite perfect. B. W. Turner made a strong Henry VIII with evidences of a warmer heart than that of Old Hal, and C. D. Herman as duke of Buckingham went to the block with address and bearing of a real hero. The two night's engagement closes with "Macbeth" tonight.

## Don't You Know

That you cannot afford to neglect that catarrh? Don't you know that it may lead to consumption, to insanity, to death? Don't you know that it can be easily cured? Don't you know that while the thousands and one nostrums you have tried have utterly failed that Dr. Sage's Catarrh Remedy is a certain cure? It has stood the test of years, and there are hundreds of thousands of grateful men and women in all parts of the country who can testify to its efficacy. All druggists.

## WHAT PEOPLE THINK.

City Assessor Cleary: Yes, I may accept the Henry George land tax theory after awhile, but I think he comes it a little too far. The George theory would work well in cities where nearly all money escapes taxation anyway, and would not materially raise the rate. Our present tax is twenty-five or twenty-six mills and would not be over thirty under the single tax system. The total burden, of course, would be no greater, but a little differently distributed.

John Brown of Tower: I am always open to conviction. I used to be opposed to civil service reform, but the past five or six years' experience has converted me, and I would like to see it extended to the state government, especially in the hospitals, reformatories and public institutions of that character. With civil service reform, the Australian ballot system and other like improvements once firmly established, a member of congress will be something more than a distributor of spoils, a cabinet officer more than a headman, and the first requisite of a presidential candidate will not be his popularity with wire pulling politicians. The days of the bosses are numbered.

To a Sea-Voyager.  
[Elated Scott Miner, in Harpers Weekly.]  
The star that low on the horizon gleams  
May be the star that leads the sailor's dreams  
That lights thy pathway with its golden beams  
Tossing with magic fire the ship's dark lanes  
Mingling with seaweed till each small drop  
Becomes  
A dazzling point. Wrapping in mystery  
The gray sea-fog which, as the night wind  
Blows,  
Moves restlessly across the stretch of sea.

On either side the waste of water lies  
Folding their. The land shows out its night;  
But that bright star within the eastern skies  
Seeds down to us both a ray of light.  
The distance fades; love covers endless space;  
Thoughts speed on wings across the golden track.

Two gleaming pathways through the night we trace,  
Our souls have met, and brought the answer back.

## Wow!

Hon. A. DeLacy Wood in the last number of the Two Harbors Iron Port, referring to some comments in The Herald a month or so ago bursts forth on the editor in the following oriental manner:

"A mere glance at the editorial page of The Herald betrays the innate acidity of the man's nature, which evil condition must be regularly expelled, lest his mental quantity become a wreck. Such event would really be no loss to the public, who more or less suffer from the foul, contaminating trail of a loathsome puff-blower which, not possessing the nobility of the rattlesnake, nor the silent but deadly force of the copperhead, sicken by its noxious breath. Even the dead would, in such case, sleep more peacefully. But what utter disgust would reign in the sub-bellies of mortals were his near approach or that of his white-cap hirelings suspected to be near."

Having burst it is now in order for DeLacy to get his hair cut.

## Whiteman Won.

In the somewhat sensational suit of B. H. Wisdom vs. A. J. Whiteman, in which the plaintiff claimed the defendant had obtained a deed without proper return, giving a valueless check in payment, Judge Ensign refused to dismiss the case. He said no testimony showed fraud on the part of Whiteman.

## Scenes of Beauty.

Have you made up your mind that you can afford to take a week or two this summer and go somewhere for a pleasure trip? If you have, don't wait till the last of July or the middle of August, when the summer heats have taken all the energy out of you. June is the month for pleasure in traveling. Where are you going? To the East? Did you ever try a trip along the upper Mississippi—from St. Paul to Rock Island? No? Then you have missed one of the most enjoyable journeys possible. Nowhere on our continent is more charming scenery—nowhere is the country richer in historical associations—"The Burlington" runs close beside the river from St. Paul to Rock Island, and is incontestably the scenic line of the Northwest. ## CHAMBER AND COUNCIL.

One Discovers the Need of Settling Tribunal County to the North and West.

The other Attempts to Sit on the City Bench and the Several Daily Newspapers.

Lakeside at Last settles the Electric Street Railway Question for Good and All.

At the chamber of commerce meeting this morning the first new business to come up was the proposition of Professor Geo. B. Howe of Minneapolis to establish a short-hand school in Duluth if public interest were manifested. He stated that fifty scholarships at \$100 each would make the venture. A. G. Herley thought the chamber could hardly make any money out of that amount and that the enterprise would have to rest on its merits like any other unprotected interest. Several present thought that number of scholarships could easily be disposed of through the personal efforts of Mr. B. Howe, who said his object was not to secure a bonus but to test the sentiment of the citizens and awaken interest in the matter.

Secretary Thompson called attention to articles in local newspapers published upon Duluth to assist in getting settlers into the country along the Duluth & Winnipeg road. Mr. Herley, who is familiar with the country, dwelt at considerable length upon its advantages for settlement. Much of the soil is rich and level, grass grows abundantly, local markets for all products are good the year round, and railroads will soon penetrate that region in all directions. He thought the chamber could well afford to spend a hundred dollars in sending some competent person up there to look over the country and prepare articles for the local press which would spread the true advantages of our surrounding country before their readers. Mr. Herley thought there were other lands between Duluth and Clouget that also need attention.

A committee consisting of Messrs. Hartley, Mitchell and Secretary Thompson were appointed to make such arrangements as they deemed best in the matter, and the chamber then went into executive session.

## DULUTH'S COUNCIL.

It Transacts the Usual Grind of Weekly Business.

At the session of the council last night a pay roll of the city engineer's department for April, with a retroactive bill of \$80 as increased salary for the engineer himself for March, was all knocked out. The council didn't see why its resolution to grant an increase of pay to the engineer taken at the last meeting, should be expected to affect the March or April pay rolls, nor why he should be paid for his assistants without consulting the board of works.

Bids for city printing were thrown out and the city clerk will endeavor for himself to bid to the proceeds. Lewis Brown, who is the city clerk, is protesting against the passing of the resolution to grant an increase of pay to the engineer taken at the last meeting, should be expected to affect the March or April pay rolls, nor why he should be paid for his assistants without consulting the board of works.

Property owners petitioned that the street railway company lay their tracks on Fourth street as it was paved. City Attorney Allen stated that all property owners along the proposed extension of the Duluth & Winnipeg road, from the intersection of Bench street and the extension and that condemnation would not be necessary.

A committee of striking street laborers sent in a communication asking the council to do all in its power to secure their demands. \$2 a day and pay semi-monthly. The mayor's appointments for members of the library board were approved. The clerk was instructed to advertise for better ferrings near the canal.

The motion that the city treasurer be empowered to employ an assistant during the busy season at \$50 per month was referred. The matter of extending Birch street and Bench street from Montana avenue eastward was referred to the board of works. The board will not be called upon to investigate sewer petitions made a week ago. Several sidewalks were ordered.

The matter of improving Lake avenue was referred back to the board of works to settle upon a plan satisfactory to all concerned. This means that seven-foot grade will be finally adopted.

The ordinance for the maintenance of peace and good order was killed. The back ordinance was delayed; the fire limit and building inspection ordinances were passed.

By the city treasurer's report it was shown that the several funds were as follows: General fund, overdrawn, \$2000; permanent improvement fund, cash, \$375; 400; fire department fund, cash, \$375; library fund, cash, \$1000.

## LAKESIDE'S COUNCIL.

Settles the Electric Road and the City Printing.

There was a most interesting and important meeting of the Lakeside council last night, at which all of the aldermen except Mr. Little were present. The chief feature of the evening's business was the passing of the electric street railway ordinance as reported in these columns two weeks ago, with a few slight amendments. These amendments were made in deference to the request of General Manager Chase of the Duluth Street Railway company. Although the company owns a franchise for London avenue, Mr. Chase is opposed to putting a line on it, as are the people of Lakeside, and so provision was made that the council could not act in a line in that thoroughfare. However, no right or franchise already owned by the company is to be prejudiced by the acceptance of the ordinance.

The clause in section 2 providing for the designation by the council of what should constitute a "convenient line" on which a maximum fare of five cents should be charged was stricken out, and the following was substituted: "Passengers transported from any point in Lakeside to any point in Duluth, or vice versa, shall be entitled to the benefit of any system of transfer that shall be adopted for the transfer of passengers within the city of Duluth." Instead of taxing each cent \$10 per annum for the first five cents and \$20 per annum afterwards, a uniform annual tax of \$10 on each car will be levied. It was decided to allow the company to work as soon as the streets were made ready by the city, but owing to the uncertainty as to the attitude of labor he wanted some leeway. He will have thirty days instead of ten days in which to accept the ordinance.

Messrs. H. M. Myers, W. B. Dow and W. A. Kennedy were made a commission on

nonfeasance proceedings for the right of way needed by the street railway company. The Tribune was given the city printing on bids of thirty-eight and twenty cents. The town hall was made the polling place in the coming election, the scavenger license ordinance, providing for a change of ten cents per cubic foot for removing night soil and \$3 each for removing dead horses and cows was passed.

## THAT WILET STEAL.

Chief Inspector Clouston Will Move to Get It Here.

Chief Grant Inspector Clouston is in town again and thinks that the investigation into the alleged theft of steel under the attorney general will prove to be fair to all parties. He says that he will use every endeavor to have the committee hold the investigation in Duluth, as in this busy season the public would be greatly inconvenienced by the hauling of the books of the state offices, railroads, steamboat companies and elevator systems to St. Paul, to be detained there several days. All the information must be gleaned from Duluth witnesses and therefore this is the proper place to hold the hearing.

At a meeting of the legislative committee, held in St. Paul last night, Senator Gissel, democrat, was made chairman and Bill Brown was chosen from his place as attorney, the alliance to the contrary notwithstanding. An effort to have the sessions held here was temporarily voted down. Senator Gissel's idea of the matter may be gathered by the following statement: "The matter of the steel theft is a political matter and the committee has divided into politics and, of course, we democrats are the last men in the world that want to see a white-wash. As I understand the matter our smart and brainy republican brethren have been getting in their work ahead of us as usual, and have secured one or two alliance members to vote with them on the organization. We will probably have such a stenographer and a clerk. Who they will be, I know not, but Eric Olson, the clerk of the house of representatives of the legislature during the session, will not be in it."

The political complexion of the committee is as follows: Republicans—Senator Gissel, Representative Zelen and Caswell. Alliance—Senator Severson, Representatives A. French and Moore. Democrats—Senator Gissel, Representative Barrett.

## A Promising Mine.

The Boulder, Mont. Age has the following to say of our lake citizen, John G. Howard, and his mine:

"The shaft of the Grizzly mine is now down 120 feet and strata of silver are being taken at the bottom. A sample brought in this week averaged forty-seven per cent silver, \$2 in gold to the ton. This is certainly very encouraging and will lead to a very thorough development of the property and probably of the whole district. At a meeting of the stockholders of the Grizzly Mining and Milling company, held in the parlors of the First National Bank of Boulder last Thursday, Messrs. John McDonald, J. G. Howard, F. Smith, J. D. Smith, Representatives Zelen and Caswell, Alliance—Senator Severson, Representatives A. French and Moore, Democrats—Senator Gissel, Representative Barrett.

In the statement of the state supreme court for the week are the following judgments: Thursday—In reapplication for judgment for alleged taxes, etc. in St. Louis county, the St. Paul & Duluth road company, appellants, vs. St. Louis county, respondent; Abigail E. Little, respondent, vs. H. H. Simonson, appellant; Zoe Rossman et al., appellants, vs. John F. Patton et al., respondents. Friday—Philip Graft, administrator, vs. the estate of David Buchanan et al., respondents; Jeremiah H. Triggs, respondent, vs. C. A. Towne, appellant; Cass Gilbert, appellant, vs. William K. Eklund et al., respondents.

Memorial Day Arrangements. The Decoration day committee of the G. A. R. met last night to arrange for the proper observance of the veterans' great day. C. A. Towne, the attorney, made favorable reply to the request to serve as orator, and Professor Myers agreed to arrange a chorus of about 100 voices. Plans decided to tender the honor of chief marshal to H. C. Kendall. Arrangements have been made with the Motor Line company for taking the best out to the new cemetery in the forenoon to decorate the soldiers' graves. It has not been decided yet a horse which will be used for the afternoon's exercises.

Chauntiqua Circle. The Chauntiqua S. S. circle, which met at Mrs. Fletcher's home, 329 West Second street, devoted last evening to the study of the geological formation of the "Lands" and French classics. The meeting proved thoroughly enjoyable. Following is the program for the next meeting which will be held at the above mentioned residence: Roll call, quotations from prose writers; geology, Mr. Hart; "Chauntiqua," a paper, Mr. Wiggins; French classics, Mrs. Boyington; practical talks on astronomy, Mr. Peckham.

Has Acted, But is Quiet Now. A Washington dispatch is as follows: It is not true that the Duluth, Red Wing & Southern railroad and the Superior, Lake Line & Terminal has neglected its opportunities or failed to take action under the law authorizing them to construct and maintain a bridge over the St. Louis river. On the contrary, the parties interested, as soon as the act was approved, took action under the law and prepared plans for the proposed bridge. So rapid and prompt was the work that the plans were approved March 12, 1891, two weeks after the passage and approval of the bill.

Real Estate. Transfers filed yesterday and furnished by the county of the register:
